The prevailing disposition to encourage the progress of Literature—the peculiar favor which St. Mary's College has enjoyed—and the many splendid chances offered to adventurers by the above scheme, induce the managers to anticipate a rapid sale of the tickets. The drawing will commence as soon as a sufficient number is sold to authorize it. The managers have given bond to the state in the penalty of sixty thousand dollars, for the faithful payment of the prizes, which will be paid subject to a deduction of 15 per cent, 30 days after the drawing is finished. Prizes not demanded within a twelve-month from the completion of the drawing, will be considered as a donation to the College.

Tickets to be had of the Managers, or to such persons as may be authorized by them.

From the above Scheme, it appears that there are less than two Blanks to a Prize; and that the Prizes are to be paid without deduction. The advantages offered to adventurers, and the very charitable object to which the money is to be applied, induce the Managers to hope, that a speedy sale of the tickets will enable them to commence drawing at an early day. All prizes will be paid in sixty days after the completion of the drawing, and such prizes as are not demanded within twelve months, will be considered as generous donations to the truly charitable object of the Lottery.

Tickets may be had of the Managers, and such other persons as they may appoint to sell. Prizes in the Lotteries now drawing in this city, will be received in payment for tickets.

### The York Springs,

Having become a place of fashionable resort during the sultry months of summer, it is presumed that an account of their mineral & medical properties will not be unacceptable to such as are disposed to visit them the ensuing season. From a chemical analysis that has been made of these waters by re-agents, it is inferred that their active principle consists of a small portion of sulphate of magnesia, or epsom salt, sulphur vivum in a state of the most complete solution, and a quantity of sulphurated hydrogen gas or hepatic air. Their effects on the human constitution correspond to the operation of those medicinal substances, when taken in moderate doses. They prove powerfully diuretic, mildly aperient, and gently promote perspiration. They appear calculated to discharge from the system the noxious bile, the principal cause of autumnal diseases, with the additional virtue of preserving and improving the tone of the stomach. To these advantageous effects, those who visit them are entitled.

#### New Patent Invention.

The subscribers respectfully inform the inhabitants of the city of Baltimore, that they have purchased the Patent right of Simon Willard, junr's Patent Washing Machine, and that they will keep a constant supply on hand, at the corner of Sharp and Bayne-streets, near the head of the Basin, for the city but not for the county of Baltimore. The subscribers are also empowered by the patentee to dispose of rights within the state of Maryland, except the counties of Washington and Baltimore, and to sell the counties of York and Lancaster in Pennsylvania, one right to each county, and that they will supply the inhabitants of the above mentioned places with a single Machine, or any number, from twelve to thirteen dollars each. This Machine will wash at least 8 shirts quicker than a woman can one, and will save one-third of the Soap; and no one can imagine that it can wear the clothes half as much as rubbing by hand. It is managed very easily by one person, and will wash any kind of clothes, from the largest coatlet, to the smallest apron. None are requested to buy until they have proved the Machine to be equal to the description. The patent was obtained from government, on the 25th of April 1807.

#### 100 Dollars Reward.

RAN away some time in December last, two Negro Men, GEORGE & HOPEWELL.—George is about 28 years of age, very stout made, and very black; has a down look when spoken to. He worked sometime with Mr. Warner, the brick-maker, in Baltimore, and it is thought he went to sea from Fell's-Point. His clothing is not recollected. Also, Negro HOPEWELL, about 22 years of age, about five feet six inches high, rather stout made, and very black; has a bold look when spoken to. He sailed in the Harve-de-Grace Packet from Baltimore, and it is probable he is at the head of the bay. Fifty dollars will be paid to any person for taking up either of said negroes and delivering them to me in Somerset county, in Maryland, or securing them in Baltimore goal, so that I get them again.

## A WORK THAT OUGHT TO BE IN POSSESSION OF EVERY MAN.

### THE LIFE OF GEN. WASHINGTON,

By JOHN MARSHALL, Chief Justice of the United States.

Complete in 5 vols. 8vo. with an elegant Portrait, and a variety of Maps; is now ready for subscribers, and for sale, by

GEORGE HILL.

The following remarks from a late London publication, attest the high opinion entertained of this authentic and interesting work:

"The public will learn with interest that the literary monument which has long been projected to the memory of the most illustrious character of modern times, is at length completed. No apology can be requisite for erecting such a monument to him who was the first in war, the first in peace, and the first in the hearts of his fellow citizens: to him who was the founder of a great and prosperous empire, and whose moderation and pure patriotism challenge the imitation of all statesmen. This performance of Judge Marshall has already been distinguished by the most honorable and unequivocal testimonies; it has been hailed as an acquisition to standard literature; and it has been considered as deserving, in point of execution, a place by the side of Robertson's Charles the Fifth, and as unrivalled in the authenticity of its materials, by any work in the entire compass of history and biography.
