Sloop Experiment, For Passengers Only.

ELIAB S. BUNKER,
Bears leave to inform his friends and the public that he will, on the first of July, commence running a SLOOP, of about one hundred & ten tons Burthen, between the cities of New-York and Hudson, for the purpose of carrying Passengers.
Few people who have had occasion to take passage up or down the North River, but have experienced the inconvenience and expense of going on board vessels deeply loaded and lumbered on deck; therefore Captain Bunker has determined to take no Freight on board the Experiment, which will remedy that inconvenience and entirely do away the risk.
The owners of this vessel, being desirous to render the passage as short, convenient & agreeable as possible, have not only taken care to furnish her with the best Beds, Bedding, Linens, Provisions, &c. but they have been at a very great expense and trouble in procuring materials and building her on the best construction for sailing and for the accommodation of Ladies and Gentlemen travelling on business or for pleasure.
The Experiment will leave New-York every Wednesday evening precisely at six o'clock, and Hudson every Sunday Morning at 8 o'clock, throughout the season.
Captain Bunker having been several years engaged in the freighting business between New-York and Hudson, has become well acquainted with every part of the river; and he hopes, by attention and punctuality to merit the patronage of Ladies and Gentlemen from the Southward, who may visit the celebrated Ballston, Saratoga, & Lebanon Springs, or Travellers who may have occasion to travel through the Northern States.—The shortness of the passage to Hudson when compared with that to Albany, or any place above Hudson, (where the river is impeded by bars, islands and overfalls that render it impossible for fast-sailing vessels to pass) he thinks will induce most people who are acquainted with the difference, to take passage to Hudson, where Carriages or Boats can at all times be had, at a moderate expense, to convey them to Albany, Troy, Lansingburgh, or the Lebanon-Springs, which are about 30 miles distance.
Hudson, May, 1867.
