## Sloop Experiment,

For Passengers Only.  
ELLIU S. BUNKER, Be s leaves to his friends and the public that he will, on the first of July, commence running a SLOOP, of about one hundred & twenty tons burthen, between the cities of New-York and Hudson, for the purpose of carrying Passengers.  
Few people who have had occasion to take passage up or down the North River, but have experienced the inconvenience and risk of going on board vessels deeply loaded and lumbered on deck; therefore captain Bunker has determined to take no freight on board the Experiment, which will remedy that inconvenience and entirely do away the risk.  
The owners of this vessel, being desirous to render the passage as short, convenient & agreeable as possible, have not only taken care to furnish her with the best Beds, Bedding, Linens, Provisions, &c. but they have been at a very great expense and trouble in procuring materials and building her on the best construction for sailing and for the accommodation of Ladies and Gentlemen traveling on business or for pleasure.  
The Experiment will leave New-York every Wednesday evening precisely at six o'clock, and Hudson every Sunday Morning at 8 o'clock, throughout the season.  
Captain Bunker having been several years engaged in the freighting business between New-York and Hudson, has become well acquainted with every part of the river; and he hopes, by attention and punctuality to merit the patronage of Ladies and Gentlemen from the Southward, who may visit the celebrated Ballston, Saratoga, & Lebanon Springs, or Travellers who may have occasion to travel through the Northern States.—The shortness of the passage to Hudson when compared with that to Albany or any place above Hudson, (where the river is impeded by bars, islands and overfalls that render it impossible for fast-sailing vessels to pass) he thinks will induce most people who are acquainted with the difference, to take passage to Hudson, where Carriages or Boats can at all times be had, at a moderate expense, to convey them to Albany, Troy, Lansingburgh, or the Lebanon Springs, which are about 30 miles distance.  
Hudson, May, 1870.

## A Contributor to the

Baltimore General Dispensary, who has been long acquainted with the merits of Dr. Williams' Pink Pills, begs leave to recommend him as a suitable character, for one of the attending Physicians; at the same time he feels a degree of pleasure in thus publicly stating, that if the most arduous application to acquire medical information, (in which the Faculty pronounce him to be very competent) if the most unwearied attention to the duties of his profession, or if an orderly life and moral deportment are recommendations worthy the attention of the Contributors, then the writer feels confident that Dr. Williams' has a fair claim to their suffrages.  
A considerable degree of public spirit has been exhibited, in support of the institution, and it would be a subject of serious regret if any want of private virtue in this department should occasion a misapplication of its Charities. Those acquainted with the gentlemen above named, know that his character is a sufficient guarantee for the performance of his duty.
