PROPOSALS.

By EZRA SARGANT, No. 39, Wall-street, New-York.

For publishing by subscription,
A NEW CYCLOPEDIA,
OR,
Dictionary of Arts & Sciences.

BY G. GREGORY, D. D.
Author of *Essays Historical and Moral, the Economy of Nature, &c. &c.*

To be completed in twelve months from the time it is put to press. In Twelve Parts. Price two dollars and seventy-five cents each.

THE literary Quackery which prompts the publisher of every new work to endeavor to magnify the merits of his own intended publication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing human can rise into esteem and honor, merely upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclopaedia, therefore, will leave it to others to discover and declare, that the generality of Books called *Encyclopaedias* are, in their very constitution and form, too expensive and too cumbersome, to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Book which he hereby proposes to offer to the public. First, It comprises the most valuable information in all the important departments of Knowledge, collected and arranged by some of the best scholars, and the most comprehensively scientific men, this day existing in Britain. Secondly, This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ease and pleasure to himself, obtain that real acquaintance with the moral, literary, political, and philosophical world, which otherwise could not be acquired from the larger works in which the sources of these streams of knowledge are contained, but by a whole life devoted to severe and unremitting labour.

In order to render the work worthy of the patronage of the American public, the Publisher has engaged all the best American Artists to engrave the Copper-Plates, of which 138 will be given in the course of the work; and has also secured the assistance of Editors of acknowledged talents and information.

It is with the blended emotions of confidence and delight, that the Publisher announces his intention of offering to his numerous patrons and supporters, a work which combines closeness with economy, and practicable utility with splendor.

That the Patrons and Subscribers of this intended Publication, may be thoroughly assured of not having their patronage and protection abused by any defect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times, the page given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be seen at the office of the Federal Gazette.

On account of the great abundance of matter and the number of Engravings which the work will contain, and in consequence of the vast expence necessarily attending the prosecution of such a plan, the publisher is compelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his purpose into full effect, before he puts any part of the intended Publication into the hands of the Engraver or the Printer.

The acknowledged and intrinsic merits of the work are such as to ensure it a very general and extensive circulation: wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engravings, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition.

That there may be no possibility of disappointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the following

CONDITIONS:

1st. The whole shall be comprised in Twelve parts, one of which shall be published monthly. Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy-five Cents, which is to be paid for on the delivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will contain more than double the matter of any similar work that has ever been published in this country.

2dly. One Dollar shall be paid at the time of subscribing, and to be deducted on the delivery of the twelfth part.

3dly. If the work be not executed in every respect equal to the engagement hereby made the subscribers shall, on returning the volumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certificate, pledging himself to that effect, to each subscriber, at the time of subscribing.

4thly. The price of each part will be raised to Three Dollars, the moment that the work is put to press; and even then, the whole expence of a work which contains the substance of all that is known on every subject, literary and scientific, will be only 36 Dollars.

Went away on the 5th instant, a small negro boy named JIM, about 13 years of age, four feet six or seven inches high, of a yellow complexion, weak and inflamed eyes, & has a few faint scars on his face; his hair cut close, excepting a small circular patch behind: stutters when he attempts to speak fast, or is alarmed. Had on an old tow linen shirt, a pair of old black striped lincey trousers, patched with blue and white kersey. He is an artful chap, and will attempt to pass as a free boy, by getting some free negro to own him as a child, which he has frequently said would be his plan should he run away. Twenty Dollars will be paid for apprehending him, if taken in this state, and the above reward if taken out of the state, if secured so that I get him, and all reasonable charges if brought home to
