BALTIMORE, July 14th, 1807. At a meeting of the Field Officers of the Ath Brigade of Maryland Militia, it was Resolved, That the Regiments, forming said Brigade, shall each be composed of Ten Companies; that each Company shall consist of not less than Sixty-four, nor more than Eighty Privates; and that they may be completed by voluntary enrolments, without re-

gard to the limits of the district, alloted to each Regiment. Resolved, That an immediate enrolment be made of the Citizens in each district between the ages of eighteen and forty five years; that the citizens thus enrolled, and who shall not at the time be attached to a Volunteer Company, shall be allowed 10 days from this date so to attach themselves; in default of doing which they shall be required to do duty in

their respective districts. Resoved, That in the event of a requisition rom the Executive, all the citizens liable to enrolment, shall be subjected to a draft; but that the recognized members of volunteer Companies shall only stand a draft in the

district to which their Regiment belongs.

Resolved, That it be, & it is hereby earnestly recommended to the commanding officers of Companies, not yet attached to any Regiment, to make their election, and to attach themselves without delay, ten days only being allowed for that purpose

PROPOSALS, By EZRA SARGEANT, No. 39, Wall-street, New-York, For publishing by subscription,

A NEW CYCLOPEDIA, OR,

Dictionary of Arts & Sciences. BY G. GREGORY, D. D. Author of Essays Historical and Moral, the Economy of Nature, &c. &c. To be completed in twelve months from

the time it is put to press. In Twelve Parts.

Price two dollars and seventy-five cents

THE literary Quackery which prompts the publisher of every new work to endea or to magnify the merits of his own intended pub lication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing human can rise into esteem and honor, merely, upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclopedia, therefore, will leave it to others to discover and declare, that the generality of Books called Encyclopedias are, in their very constitution and form, too expensive and two cumb rsome, to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Book which he hereby proposes to offer to the public First, It comprises the most valuable information in all the important departments of Krowledge, collected and arranged by some of the best scholars, and the most comprehensiv ly scientific men, this day existing in Britain Secondly. This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ease and pleasure to himself, obtain that real acquaintance with the moral, literacy, political, and philosophical world, which otherwise could not be acquired from the larger works in which the sources of these streams of knowledge are contained, but by a whole

ine devoted to severe and unremitted labour.

In order to render the work worthy of the patronage of the American public, the Publisher has engaged all the best American Artists to engrave the Copper-Plates, of which 138 will be given in the course of the work;

138 will be given in the course of the work; and has also secured the assistance of Editors of acknowledged talents and information. It is with the blended emotions of confidence and delight, that the Publisher announces his intention of offering to his numerous patrons and supporters, a work which combines eloquence with economy, and practicable utility with substitute. practicable utility with splender.

That the Patrons and Subscribers of this intended Publication, may be thoroughly as-

sured of not having their patronage and pro-tection abused by any defect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times, the page given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be seen at the office of the Federal Gazette ter and the number of Engravings which

On account of the great abundance of nat work will contain, and in consequence of the vast expense necessarily attending the prosecution of such a plan, the publisher is compelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his purpose into full effect, before he puts any part of the intended Publication into the hands of the Engraver or the Printer.

The acknowledged and intrinsic merits of the work are such as to ensure it a very general and extensive circulation: wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engravngs, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition.

That there may be no possibility of disappointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the follo CONDITIONS:

1st. The whole shall be comprised in Twelve parts, one of which shall be published month-Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy five Cents, which is to be paid for on the delivery of each part-the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will contain more than double the matter of any similar work that has ever been published in this country. 2dly. One Dollar shall be paid at the time

of subscribing, and to be deducted on the delivery of the twelfth part.

3dly. If the work be not executed in every respect equal to the engagement hereby made the subscribers shall, on returning the vo-lumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certificate, pledging himself to that effect, to each

subscriber, at the time of subscribing. 4thly. The price of each part will e raised to Three Dollars, the moment that the work is put to press; and even then, the whole expense of a work which contains the substance of all that is known on every subject, literary and scientific, will be only 36

New-York, May, 1807. June 1.
