William Carman

HAS opened his SLATE YARD, on Spear's
wharf, below Smith & Hooper's Bake-house,
for the sale of SLATE, of which he has a
good supply in readiness for the present sea-
son. The quality of the Slate is such that
little need be said of it—general satisfaction
has been experienced by those who have used
it.

Many buildings in this city are covered with
Slate that is really rotting, owing to the quan-
tity of clay naturally mixed with it; but the
slate here advertised is of the most durable
kind, in consequence of the Iron contained in
it. Such persons as see it their interest to
use an article of acknowledged superiority,
may depend on having their orders punctually
executed, as W. C. is determined to receive
no more than he can fulfil in time agreeably
to contract.

The buildings already covered with this
slate are as follow:—Mr. Robert Oliver's
back buildings in Gay-street; captain Carr's,
on Fell's Point; Philip Littig's, Baltimore-
street; Henry Payson's, Hanover-street; Ja-
cob Myers's, South-street, and Amos A. Wil-
liams's warehouse, on Bowly's wharf.

N. B. The price of the Slate is 10 Dollars
per square of ten feet (100 feet superficial mea-
sure.) The slate is measured when the work
is finished, allowing one foot extra in the length
of the eaves, hips and valleys.
SLATEPS will be recommended, if re-
quired, that will do credit to the work.

Land for Sale,

About 380 acres of Woodland, from nine
to ten miles from Baltimore, on the main
road to Ellicott's upper Mills: there is a large
quantity of timber and wood on this tract;
it is allowed by good judges that it will ave-
rage considerable more cords of wood per
acre, than will pay the price I ask for it, as
it stands, without any expense or trouble in
cutting. The price of five word the last
winter, with the increasing scarcity of that
article on the tide waters, and near Balt more,
it is thought will make this property of great
value in a few years, to one that has the
money to spare. The whole may be sold to-
gether or had in lots, as may best suit pur-
chasers, one half the money will be required
in hand, for the other half, two or three years
credit will be given. Mahlon Ely, living

CONRAD, LUCAS & CO. (late M. & J

For Publishing
LEWIS & CLARK'S TOUR TO THE
PACIFIC OCEAN

THROUGH THE INTERIOR OF THE
CONTINENT OF NORTH AMERICA.
Performed by order of the Government of the
United States, during the years 1804, 1805
and 1806.

THIS work will be prepared by captain
Meriwether Lewis, and will be divided into
two parts, the whole comprized in three vol-
umes octavo, the first containing at least 700
pages, the second and third from four to five
hundred each, printed on good paper, and a
fair Pica type. The several volumes in suc-
cession will be put to press at as early periods
as the avocations of the author will permit him
to prepare them for publication.

Part the first: in two volumes.

WILL contain a narrative of the voyage,
with a description of some of the most re-
markable places in those hitherto unknown
parts of America, accompanied by a map of
good size, a large chart of the entrance of the
Columbia river, embracing the adjacent coun-
try, coast and harbors, and embellished with
views of two beautiful cataracts of the Mis-
souri; the plan, on a large scale, of the con-
nected falls of that river, as also of those of
the falls, narrows and great rapids of the Co-
lumbia, with their several portages. For the
information of future voyagers, there will be
added in the sequel of this volume, some
observations and remarks on the navigation of
the Missouri and Columbia Rivers, pointing
out the precautions which must necessarily be
taken, in order to ensure success, together
with an itinerary of the most direct and prac-
ticable route across the continent of North
America, from the confluence of the Missou-
ri and Mississippi rivers to the discharge of
the Columbia into the Pacific Ocean.

Volume Second.

Whatever properly appertains to geogra-
phy, embracing a description of the rivers,
mountains, climate, soil and face of the coun-
try; a view of the Indian nations distributed
over that vast region, showing their tradi-
tions, habits manners, customs, national char-
acters, stature, complexions, dress, dwell-
ings, arms, and domestic utensils, with many
other interesting particulars in relation to
them; also observations and reflections on the
subjects of civilization, governing and main-
ing a friendly intercourse with these nations.
A view of the fur trade of North America,
setting forth a plan for its extension, and
showing the immense advantages which would
accrue to the mercantile interests of the United
States, by combining the same with a direct
trade to the East Indies through the continent
of North America. This volume will be em-
bellished with twenty plates illustrative of the
dress and general appearance of such Indian
nations as differ materially from each other;
of their habitations; their weapons and ha-
bilitments used in war; their hunting and
fishing apparatus; domestic utensils, &c. In
an appendix there will also be given a diary of
the weather kept with great attention thro'-
out the whole of the voyage, shewing also the
daily rise and fall of the principal water courses
which were navigated in the course of the
same.

Part the second: in one volume.

This part of the work will be confined ex-
clusively to scientific research, and principal-
ly to the natural history of those hitherto un-
known regions. It will contain a full disserta-
tion on such subjects as may have fallen with-
in the notice of the author, and which may
properly be distributed under the heads of
Botany, Mineralogy, and Zoology, together
with some strictures on the origin of Primitives,
the cause of the multitudes of the Missouri
of volcanic appearances, and other natural
phenomena which were met with in the course
of this interesting tour. This volume will also
contain a comparative view of twenty-three
vocabularies of distinct Indian languages, pro-
cured by captains Lewis and Clark, on the
voyage, and will be ornamented and embel-
lished with a much greater number of plates
than will be bestowed on the first part of the
work as it is intended that every subject of
natural history which is entirely new, and of
which there are a considerable number, shall
be accompanied by an appropriate engraving
illustrative of it.

This distribution of the work has been made
with a view to the accommodation of every
description of readers, and is here offered to
the patronage of the public in such shape, that
all persons wishing to become subscribers,
may accommodate themselves with either of
the parts, or the entire work, as it shall be
most convenient to themselves.

Detached from this work, there will be published
LEWIS AND CLARK'S

Map of North America,

From Long. 9 deg. west, to the Pacific O-
cean, and between 36 deg. and 52 deg. N.
Lat. with extensive marginal Notes; Dimen-
sions Five feet eight inches by Three feet
ten inches

Embracing all their late discoveries, and
that part of the continent heretofore the least
known. This Map will be compiled from the
best maps now extant, as well published as in
manuscript, from the collective information of
the best informed travellers through the
various portions of that region, and corrected
by a series of several hundred celestial obser-
vations, made by captain Lewis' during his
late tour.

For the convenience of subscribers, these
several works will be delivered at the most
respectable commercial towns, and at the seats
of government of the respective states and
territories within the Union: no advance is
required, nor will payment be demanded until
such delivery is made.

The price of part the first, in two vols.
will be ten dollars, and that of part the 2d
in one volume, eleven dollars, delivered in
boards. Price of the Map, 10 dollars

Any persons who may have subscribed
for these works, to lists which contain no si-
gnature of the name, and who may be dis-
satisfied with the terms now proposed, are
at liberty to withdraw their names from such
lists, at any time prior to the 1st day of De-
cember next.
