PROPOSALS, By EZRA SARGEANT, No. 39, Wall street, New York, For publishing by subscription, A NEW CYCLOPEDIA,

OR,

Dictionary of Arts & Sciences.

BY G. GREGORY, D. D.

Author of Essars Historical and Moral, the

Economy of Nature, &c. &c.

To be completed in twelve months from
the time it is put to press. In Twelve Parts.

Price two dollars and seventy-five cents
each

THE literary Quackery which prompts the publisher of every new work to end avor to magnify the merits of his own intended publication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing human can rise into esteem and honor, merely, upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclopedia, therefore, will leave it to others to discover and declare, that the generality of Books called Encyclopadias are, in their very constitution and form, too expensive and two cumb rsome, to be either extensively circulated, or generally useful; and will content himself with brickly stating the claims and pretensions of the Book which he hereby proposes to offer to the public First, It comprises the most valuable information in all the important departments of Know-ledge, collected and arranged by some of the best scholars, and the most comprehensively scientific men, this day existing in Britain Secondly. This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ea e and pleasure to himself, obtain that real acquaintance with the moral, literary, politi-cal, and philosophical world, which other-wise could not be acquired from the larger works in which the sources of these streams of knowledge are contained, but by a whole

life devoted to severe and unremitted labour. In order to render the work worthy of the patronage of the American public, the Pub-lisher has engaged all the best American Artists to engrave the Copper Plates, of which 138 will be given in the course of the work; and has also secured the assistance of Edi-tors of acknowledged talents and information. It is with the blended emotions of confi-

dence and delight, that the Publisher an-nounces his intention of offering to his numerous patrons and supporters, a work which combines eloquence with economy, and practicable utility with splendor. That the Patrons and Subscribers of this to contract.

N. B. The price of the Slate is 10 Dollars
per square of ten feet (100 feet superficial meuonaccount of the great abundance of mat-

oution of such a plan, the publisher is com-pelled to solicit the sid of a sufficient number of subscribers, to enable him to carry his purpose into full effect, before he puts any part of the intended Publication into the hands of the Engraver or the Printer,

The acknowledged and intrinsic merits of the work are such as to ensure it a very general and extensive circulation: wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engravings, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition.

That there may be no possibility of dis appointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the follo CONDITIONS:

1st. The whole shall be comprised in Twelve parts, one of which shall be published monthly. Each part shall contain about 150 quarto pages, nearly done up in colored paper, at the price of Two Dollars and Seventy five Cente, which is to be paid for on the delivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will comain more than double the matter of any similar work that has ever been published in this country. 2dly One Dollar shall be paid at the time

of subscribing, and to be deducted on the delivery of the twelfth part. Sdly. If the work be not executed in every

respect equal to the engagement hereby made the subscribers shall, on returning the vo-lumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certificate, pledging himself to that effect, to each subscriber, at the time of subscribing.

4thly. The price of each part will eraised to Three Dollars, the moment that the work is put to press; and even then, the whole expense of a work which contains the substance of all that is known on every subject, literary and scientific, will be only 36
