Hager's-Town Bank, July 23d, 1807.

100 Dollars Keward.

On the 7th inst. (the day on which they were printed) there was stolen from the printing room of the Hager's-Town Bank, four half sheets, or impressions of printed notes, each half sheet containing four notes, viz. one of \$100, one of \$10, one of \$5, and one post note, all blank; and as none struck from the same plate have been issued by the bank, except eight \$100 notes, from No. 1 to No. 8, inclusive, or will be issued until the solen notes are recovered, the counterfeits may readily be detected The \$10 a d \$5 notes are No C; all of the same denomination which have been issued are No. A. and B. of course no \$10 or \$5 notes No. C, are in circulation, but counterfeirs, or any \$100, except eight. The stolen notes are badly executed, being printed by a person who did not understand the bisiness; they have a smutty appearance, and two of the \$10 notes, which I have seen and which were detected in Baltimore, are very badly filled up and signed.

The above reward will be given for apprehending and prosecuting to conviction, the person who has or may forge the filling up and signatures of any of the said stolen notes, or who has or may pass any of them with a know-

who has or may produced the forgery.

Taz literary Quackery which prompts the publisher of every new work to end ayor to magnify the merits of his own intended pub lication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing human can rise into esterm and honor, merely upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclop dia, therefore, will leave it to others to discover and declare, that the generality of Books called Enciclopa ias are, in their very constitution and form, too expensive and two cumb rsome to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Boo which he hereby proposes to offer to the public First. It comprises the most valuable information in all the important departments of K. ow. ledge, collected and arrayed by some of the best scholars, and the most comprehensiv ly scientific men, this day existing in Britain Secondly. This information is comprised in a small compass, and conveved in language at once perspicuous and elegant; so that the reader may, in a short space of time, with reader may, in a short space of time, with eae and pleasure to himself, obtain that real acquaintance with the moral, literary, politi-ca, and philosophical world, which other wise could not be acquired from the larger works in which the sources of these streams of knowledge are contained, but by a whole

lie devoted to severe and unremitted labour.

In order to render the work worthy of the patronage of the American public, the Publisher has engaged all the best American Artists to engrave the Copper Plates, of which and has also secured the assistance of Editors of acknowledged talents and information.

It is with the blended emotions of confi-

dence and delight, that the Publisher annunces his intention of offering to his numerous patrons and supporters, a work which combines eloquence with economy, and practicable utility with splinder.

practicable utility with splendor.

That the Patrons and Subscribers of this intended Publication, may be thoroughly assured of not having their patronage and protection abused by any delect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times, the page given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be seen at the office of the Federal Greater. seen at the office of the Federal Gazette

On account of the great abundance of mat-ter and the number of Engravings which the work will contain, and in consequence of the vast expence necessarily attending the prose oution of such a plan, the publisher is compelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his pur-pose into full effect, before he puts any part of the intended Pub ication into the hands of the Engraver or the Printer.

The acknowledged and intrinsic merits of the work are such as to ensure it a very ge n ral and extensive circulation: wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engray ings, as yet no specimen can be given; but the Publisher pledges himself that they shall b. at least equal, and many superior to those in the London edition.

That there may be no possibility of disappointment to the patrons of literature as to this wirk, the subscriptions are proposed to be received on the following CONDITIONS:

1st. The whole shall be comprised in Twelve parts, one of which shall be published month-Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy five Cents, which is to be paid for on the derivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will concain more than double the matter of any similar work that has ever been published in this country.

2dly One Dollar shall be paid at the time of subscribing, and to be deducted on the delivery of the twelfth part.

3diy. If the work be not executed in every respect equal to the engagement hereby made the subscribers shall, on returning the vo-lumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certificate, pledging himself to that effect, to each subscriber, at the time of subscribing.

4thly. The price of each part will e raised to Three Dollars, the moment that the work is put to press; and even then, the substance of all that is known on every subject, literary and scientific, will be only 36
