PROPOSALS,

By EZRA SARGEANT, No. 39, Wall-street,
New-York.

A NEW CYCLOPEDIA,

OR,
Dictionary of Arts & Sciences.

BY G. GREGORY, D. D.

Author of *Essays Historical and Moral, the*
Economy of Nature, &c. &c.

To be completed in twelve months from
the time it is put to press. *In Twelve Parts.*
Price two dollars and seventy-five cents
each.

The literary Quackery which prompts the
publisher of every new work to endeavor to
magnify the merits of his own intended pub-
lication by depreciating the merit of all other
similar productions, is, at once, both useless
and despicable; because nothing human can
rise into esteem and honor, merely upon the
ruins of another's reputation, without some
intrinsic excellence of its own. The Publish-
er of Gregory's Cyclopaedia, therefore, will
leave it to others to discover and declare, that
the generality of Books called *Encyclopaedias*
are, in their very constitution and form, too
expensive and too cumbersome, to be either
extensively circulated, or generally useful; and
will content himself with briefly stating the
claims and pretensions of the Book which
he hereby proposes to offer to the public.
First, It comprises the most valuable informa-
tion in all the important departments of Know-
ledge, collected and arranged by some of the
best scholars, and the most comprehensively
scientific men, this day existing in Britain
Secondly, This information is comprised in
small compass, and conveyed in language at
once perspicuous and elegant; so that the
reader may, in a short space of time, with
ease and pleasure to himself, obtain that real
acquaintance with the moral, literary, politi-
cal, and philosophical world, which other-
wise could not be acquired from the larger
works in which the sources of these streams
of knowledge are contained, but by a whole
life devoted to severe and unremitted labour.

In order to render the work worthy of the
patronage of the American public, the Publish-
er has engaged all the best American
Artists to engrave the Copper-Plates, of which
138 will be given in the course of the work;
and has also secured the assistance of Edit-
ors of acknowledged talents and information.

It is with the blended emotions of confi-
dence and delight, that the Publisher an-
nounces his intention of offering to his nu-
merous patrons and supporters, a work
which combines eloquence with economy, and
practicable utility with splendor.

That the Patrons and Subscribers of this
intended Publication, may be thoroughly as-
sured of not having their patronage and pro-
tection abused by any defect in the execution
of the work itself, or any want of punctuality
in its appearance, at the stated and appointed
times, the page given as a specimen of the
style in which the publisher solemnly pledges
himself and his executors, may be seen at
the office of the Federal Gazette.

On account of the great abundance of mat-
ter and the number of Engravings which the
work will contain, and in consequence of the
vast expence necessarily attending the prose-
cution of such a plan, the publisher is com-
pelled to solicit the aid of a sufficient number
of subscribers, to enable him to carry his pur-
pose into full effect, before he puts any part
of the intended Publication into the hands of
the Engraver or the Printer.

The acknowledged and intrinsic merits of
the work are such as to ensure it a very ge-
neral and extensive circulation; wherefore
it only remains to the Publisher to ensure
to his subscribers that the whole of the exe-
cution, as to the accuracy and elegance of the
engravings, paper, and type, shall be such,
as in every respect to correspond with the
high value of the work. As to the engrav-
ings, as yet no specimen can be given; but
the Publisher pledges himself that they shall
be at least equal, and many superior to those
in the London edition.

That there may be no possibility of disap-
pointment to the patrons of literature as to
this work, the subscriptions are proposed to
be received on the following
CONDITIONS.

1st. The whole shall be comprised in Twelve
parts, one of which shall be published month-
ly. Each part shall contain about 150 quarto
pages, neatly done up in colored paper, at the
price of Two Dollars and Seventy-five Cents,
which is to be paid for on the delivery of
each part—the whole twelve parts when
completed will make two volumes in quarto,
containing 238 Copper-Plate Engravings,
which alone are worth the price of the whole
work. It will contain more than double the
matter of any similar work that has ever
been published in this country.

2dly. One Dollar shall be paid at the time
of subscribing, and to be deducted on the
delivery of the twelfth part.

3dly. If the work be not executed in every
respect equal to the engagement hereby made
the subscribers shall, on returning the vol-
umes, receive back the amount of their sub-
scription money which has been advanced.

If required, the publisher will give a Certi-
ficate, pledging himself to that effect, to each
subscriber, at the time of subscribing.

4thly. The price of each part will be raised
to Three Dollars, the moment that the
work is put to press; and even then, the
whole expence of a work which contains the
substance of all that is known on every sub-
ject, literary and scientific, will be only 36
Dollars.

Just Received

From Philadelphia, and for sale by GEORGE
HILL,
The most valuable work that has been pre-
sented to the public these ten years.
**AN INQUIRY INTO THE NATURE AND EX-
PECTS OF**
The Paper Credit
OF
GREAT BRITAIN.
By H. THORNTON, Esquire,
Member of Parliament.

The subjects discussed in the above work
are of a nature so extremely interesting to
every person at all concerned in *Commercial*
Transactions or Bank & Finance, and correct
information respecting them so difficult to be
obtained, that it cannot fail being read with
profit and pleasure.

The following short prospectus of its impor-
tant subjects will give some idea of the nature
of it, viz.
Commercial credit; paper credit, as arising
out of it; commercial capital; trade by barter;
money; bills of exchange and notes; bills and
notes considered as discountable articles; cir-
culation bills or bills of accommodation; cir-
culation paper; bank notes; the nature of the
bank of England; the reason for never greatly
diminishing its notes; the balance of trade; the
course of exchange; error of imagining that
gold can be provided at the time of actual dis-
tress; country banks, their advantages and dis-
advantages; the tendency of a too great issue
of bank paper to produce an excess of the mar-
ket price above the mint price of gold; the
circumstances which render it necessary that the
bank should impose its own limit on the quan-
tity of its paper; effect of the law against mis-
sion; proof of the necessity of restricting bank
loans, drawn from the case of the transfer of
capital to foreign countries; of the influence
of paper credit on the price of commodities.
The following extracts from the *Birmingham Review*
respecting the above work will shew the estima-
tion in which it is held in Europe
Speaking of the suspension of cash pay-
ments at the bank of England, it proceeds to
observe, "Of all the publications which that
momentous event has occasioned, the most
valuable, unquestionably, is this of Mr. Thor-
nton. With no ostentatious professions, and
with no admixture of superfluous matter, it
contains the largest portion of new information,
that has for a long time been offered to those
who either for the pleasure of speculation, or
with a view of public life, are engaged in the
researches of political economy."
