PROPOSALS,

By EZRA SARGANT, No. 39, Wall-street, New-York, For publishing by subscription, A NEW CYCLOPEDIA, OR, Dictionary of Arts & Sciences.

BY G. GREGORY, D. D. Author of Essays Historical and Moral, the Economy of Nature, &c. &c. To be completed in twelve months from the time it is put to press. In Twelve Parts Price two dollars and seventy-five cents each.

This literary Quackery which prompts the publisher of every new work to endeavor to magnify the merits of his own intended publication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing human can rise into esteem and honor, merely upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclopaedia, therefore, will leave it to others to discover and declare, that the generality of Books called Encyclopaedias are, in their very constitution and form, too expensive and too cumbersome, to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Book which he hereby proposes to offer to the public. First, It comprises the most valuable information in all the important departments of Knowledge, collected and arranged by some of the best scholars, and the most comprehensively scientific men, this day existing in Britain. This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ease and pleasure to himself, obtain that real acquaintance with the moral, literary, political, and philosophical world, which otherwise could not be acquired from the larger works in which the sources of these streams of knowledge are contained, but by a whole life devoted to severe and unremitting labour. In order to render the work worthy of the patronage of the American public, the Publisher has engaged all the best American Artists to engrave the Copper-Plates, of which 135 will be given in the course of the work; and has also secured the assistance of Editors of acknowledged talents and information. It is with the blended emotions of confidence and delight, that the Publisher announces his intention of offering to his numerous patrons and supporters, a work which combines elegance with economy, and practical utility with splendor. That the Patrons and Subscribers of this intended Publication, may be thoroughly assured of not having their patronage and protection abused by any defect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times, the page given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be seen at the office of the Federal Gazette. On account of the great abundance of matter and the number of Engravings which the work will contain, and in consequence of the vast expense necessarily attending the prosecution of such a plan, the publisher is compelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his purpose into full effect, before he puts any part of the intended Publication into the hands of the Engraver or the Printer. The acknowledged and intrinsic merits of the work are such as to ensure it a very general and extensive circulation: wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engraving, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition. That there may be no possibility of disappointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the following CONDITIONS: 1st. The whole shall be comprised in Twelve parts, one of which shall be published monthly. Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy-five Cents, which is to be paid for on the delivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will contain more than double the matter of any similar work that has ever been published in this country. 2dly. One Dollar shall be paid at the time of subscribing, and to be deducted on the delivery of the twelfth part. 3dly. If the work be not executed in every respect equal to the engagement hereby made, the subscribers shall, on returning the volumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certificate, pledging himself to that effect, to each subscriber, at the time of subscribing. 4thly. The price of each part will be raised to Three Dollars, the moment that the work is put to press; and even then, the whole expense of a work which contains the substance of all that is known on every subject, literary and scientific, will be only 36 Dollars. Subscription received by GEORGE BILL, No. 104, Baltimore-street. New-York, May, 1867. June 1. d

Valuable Property for Sale.

THE subscriber being desirous of procuring some good lands in the south-western country, and to enable him to do so, offers the following property for sale, viz:

TRACT of LAND, situate in the county of Fairfax and state of Virginia, whereon I now reside, containing upwards of 2400 acres. This land is well adapted to farming, is level, well watered and timbered, full one half being in wood, near the centre of which stands the county court house and other public buildings which are included within the bounds of a town lately laid out at this place, authorized by an act of the general assembly of Virginia, on several of which lots buildings have been erected, &c. On one acre thereof, near the court-house, is a large two story brick House, rented and occupied as a tavern, together with large stables, kitchen, and house for the retirement of a family, &c. Perhaps there is no situation between the eastern and western waters more public, or that affords better stands for taverns, stores, mechanics, &c. particularly to an inn-keeper, calculated to act on a large scale. The Little River turnpike paved road, leading from Alexandria to the westward, passes immediately at this place, as also the main public and post roads leading to and from Alexandria, Georgetown, the city of Washington, Baltimore, and the Western country—distance from Alexandria 14, and from the city of Washington 15 or 16 miles. To accommodate a purchaser or purchasers, I would dispose of the property at this place, or any part thereof, separate from the other lands. The annual rent of the small part now improved, is near eight hundred dollars, and at little additional expence would produce from one thousand dollars to twelve hundred dollars per annum, exclusive of lots that might be sold or rented on ground-rent; and I would divide the land in two or three parts to suit purchasers. On that part occupied by myself, are a comfortable dwelling-house, sufficient for the accommodation of a large family, with barn, stables, and other convenient out-houses, orchards, &c. As it is presumed a person disposed to purchase would first view the premises, a further description is thought unnecessary. A small piece of Land within one and a half miles of the court-house, situate on Accotink Run, containing 19 acres, mostly rich and valuable grass land, which affords a tolerable mill seat, and was purchased with a view of erecting one thereon, the timber for which (of excellent quality) hath been cut and squared. A Lot in the town of Alexandria, with a two story brick house, kitchen and stable thereon, situate near the centre thereof; and About 1500 acres of Land, situate on the waters of Licking, in the county of Bourbon, and state of Kentucky. This land is classed as second rate, is rich, lies well, and by judges of that country said to be worth from five dollars to eight dollars per acre, and on which are several small settlements. For the property in Fairfax and Alexandria, indisputable titles will be made; the title to the Kentucky land is thought to be good, on investigation on that subject having lately taken place, and is patented in my own name. Nothing short of a strong desire to provide for a large and growing family, should induce me to offer this property for sale. My terms will be such as cannot fail to accommodate a purchaser, as but a small portion will be required in hand, and on securing the balances satisfactory, to meet arrangements which in such cases I wish to make, lengthy credits will be given. I wish to receive in part payment good lands in the state of Tennessee, not more than thirty miles from Nashville, or the waters of Rock River, in said state; but the title thereto must be well established and secured. Application must be made to RICHARD RATCLIFFE, Fairfax county, state of Virginia, August 25. law 1m
