George Lightner,

At his Established AND PEWTER MANUFACTORY, North-street, Oldtown, near the Haycock, informs his friends and the public generally that he keeps on hand a large assortment of the best Manufactured TIN and PEWTER, warranted of the first workmanship. Country Merchants and others will find it greatly to their advantage to call at the Manufactory, as the prices will be made an object of merchants taking a quantity. Copper and Pewter will be taken in payment for new, and the highest price given.

Also for Sale or Rent, A small FARM, containing about 40 acres, in Govane's town, opposite the tavern formerly kept by Mr. John Wooden. There are on this Farm, two convenient Dwelling-Houses, Barn, Smoke-House, Spring-House, and all other necessary buildings; 12 acres of Woodland, and about the same quantity in Meadow; about 250 Apple-Trees, and a quantity of other Fruit. The whole is under enclosure, and would make a handsome retreat for any gentleman during the summer season. It will be sold on liberal terms, or rented to a good tenant. Terms made known by applying to **GEORGE LIGHTNER,** Oct. 31.

William Cooke, Junr. Has received for the skin Erin, from Bordeaux, 5 cases Lutescences, Grenoble Kid Gloves, Silk Stockings, Extra Long Silk Gloves, Men's Buckskin Gloves, Twilled Silk Shawls, Cambric.

William P. Mathews Has just received by the Fair American, from London, AN EXTENSIVE SUPPLY OF **Fresh Drugs and Medicines.** His stock is now general and extensive, consisting of Glaziers' Diamonds, Dye Stuffs & fine Fig Blue, Gentian Windsor Soap, Wash Balls, Teeth Brushes, and a variety of Perfumery.

College of Medicine.

AT a full and respectable meeting of the Medical Faculty of this city, at Dr. Davidge's, it was unanimously resolved, that, in consequence of the late intervention of the Lectures on Anatomy and Surgery, and the very generous and handsome present of a Lot of Ground in the precincts from a gentleman whose philanthropy and amiableness are only equalled by his love of science, a number of Physicians be appointed to wait on the inhabitants of the city to procure such a sum of money as may be necessary for the erection of buildings suitable for the accommodation of professors in the different branches of Medicine. Many circumstances concur to invite to the above measure: Baltimore is rising by its commerce, to rank among the first cities of the union, is the only eligible and in every respect suitable spot south of Philadelphia, on which a Medical College can be established; it flourishes in riches, opening a field to manufactures; and its, we hope, assuming to itself, by its generous and enlightened views, the reputation of being a nursery for the arts, the sciences, and the liberal professions.

At this moment a bill to organize a medical College is before the General Assembly of the state; and the liberality of our citizens will not, in our opinion, wait to receive an example so indicative of a polished condition of society, from the state, in an establishment from which such immediate advantage will result to our municipal community. It would rather suggest the example.

By order of the meeting, D. S. C. d4t
