When the highly interesting object of the above *Scheme of a Lottery* is considered; together with the very flattering prospect it holds out to every person disposed to contribute *Ten Dollars* for so laudable a puruose as that of bringing a Collegiate course of instruction more generally within the reach of the Community, it is hoped it cannot fail to receive a prompt and liberal support from the citizens of Baltimore in particular, and the public in general.

When it is also taken into view, that the *Baltimore College* hath received the first sanction o the State, and that it already contains a number of students equal to that of most Colleges in the United States; and yet has no accommodations but such as are at the private expence of the principal professors—it is hoped the community will see in this mode of providing proper buildings, no design but what is indispensibly necessery, and conducive to general interest

Prizes will paid, sixty days after the completion of the drawing, such as are not demanded within twelve months thereafter will be considered as generous donations to the above institution.
