Proposals

FOR PUBLISHING BY SUBSCRIPTION, A History of the Kine Pock. And for supplying Physicians and others regularly with ACTIVE VACCINE MATTER, until the first of May, eighteen hundred and eleven.

By JAMES SMITH, Physician, Chatham-street.

I. The History of the Kine Pock, will be published as soon as circumstances will admit. The work shall be as concise as possible; not omitting, however, any information that may be considered either useful to the Inoculator, or interesting to the community.

II. The subscription for each copy will be five dollars, payable on delivery of the work.— Distant Subscribers are requested to nominate, if convenient, any person in this city, who would receive the Work, and forward it without delay.

III. Every subscriber shall be entitled to a free supply of Active Vaccine Matter, at any time until first of May, 1811. It will be transmitted by post to any part of the United States. A charge, however, of five Dollars, will be hereafter made for every Portion of Vaccine Matter put up for the use of any other person than subscribers to this work.

IV. Every subscriber for one copy shall be entitled to one Inoculation every year, for three years from this date, free of any expense. Subscribers for two or more Copies shall be entitled, during the same period, to have inoculated any number of their own children, apprentices and servants, free of all charges.

V. Every necessary attendance will be given to those Inoculated at their own houses, if in the city or precincts, or at the Author's Inoculating Room, in Chatham-street, as may be most convenient. A regular record will be kept of every Case.

POOR PERSONS of every description, are inoculated and particularly attended to, every Sunday morning, at the inoculating room. Subscribers to this work are earnestly desired to bring forward, to receive the Kine Pock, the Orphan who may be destitute, and the children of any person who may be unable to secure them from Small Pox.

ALTHOUGH the discovery of the KINE POCK has been justly acknowledged to afford us the means of securing ourselves, our children from the Small Pox with little or no inconvenience whatever; & although it has been introduced and spread amongst us with as much industry, and on terms as favorable as could be wished—yet how much is it to be regretted, that every day seems to lessen its importance, or adds greatly to our negligence in using it!

For a little while, indeed, we were all enthusiasts in adopting the new Inoculation, and we expelled the Small Pox from our city. But already the public seem to have become wearied with obtaining so great a benefit, on terms so easy and so simple; and at this time we can scarcely find a family but has one or more of its members liable to take the Small Pox, if chance should bring again its contagion to their door.

To preserve a constant supply of Vaccine Infection, so that it may at any time be procured from some well known source, has been always considered to be an object of the first importance to the community. It is now well known that it is scarcely possible for physicians in the country, to keep a supply of active vaccine matter for themselves, without experiencing frequent and troublesome interruptions; and hitherto they have annually lost it; depending solely for a fresh supply from this or some other populous city, where it is more practicable to keep it alive. No one here, except the Author of these Proposals, has as yet taken upon himself the trouble of preserving this invaluable Remedy; and it has been lost every summer by every other Physician in this City; and has been renewed again every winter and spring, by a fresh distribution from his little stock. For the last Summer past, however, he could not have performed a sufficient number of Inoculations to have kept the Kine Pock in existence among us, had he not often times solicited as a personal favour, the liberty of communicating it, without any charge whatever, for the benefit conferred. At this time he finds great difficulty in procuring as many patients as are necessary to furnish the matter demanded of him, for the use of those Inoculators who now require their annual supply of this invaluable remedy.

From the particular attention which he has been led to bestow upon this subject, many new and important improvements presented themselves, as well in preserving the Vaccine Virus, as in applying it in a more safe and easy manner than had been before practised by any of his acquaintance. He however, considers Vaccination as still in its infancy, and has no doubt but that many other or greater improvements may be made, if Inoculators would be at the trouble of noticing the very many curious circumstances which daily present themselves in this new and astonishing Disease; and he hopes that a more perfect knowledge of the Kine Pock may yet, perhaps, point out to us the true nature of every contagion which afflicts the human race.

It is therefore conceived to be a duty incumbent on him to continue his earnest attention to the subject for a few years longer; and he flatters himself, that by offering a regular supply of genuine vaccine matter, and endeavouring to diffuse a more accurate knowledge of the Kine Pock, he will promote its more general extension among his fellow citizens; and that by removing their prejudices, he will stimulate them to perform an important duty which they owe to themselves, their children, apprentices, servants and neighbours. That his intentions, however, to serve the public, in proposing a work of this kind to them, may not be disappointed, it must be observed, that he has undertaken the very uncommon task (however laborious it may be to himself) of carrying the Practice hand in hand with the Theory, so that if his Book should not have sufficient merit, his Work shall make up for all deficiencies.

Notice.

The Creditors of Samuel Whittington, late of Calvert county, deceased, are requested to attend at Mr. Wallis's Tavern, in lower Marlborough, on Friday the 10th day of June next, for the purpose of receiving their dividends of the assets in the hands of WM. WHITTINGTON, Adm'r.

Farms and Lots to be Leased.

To be Leased on a Ground Rent, for ninety-nine years, renewable forever, Sundry LOTS, and Small FARMS, lying on the Frederick Turnpike Road, on the Elk-Ridge Landing Road, and Cross Roads, leading from one to the other: distant not three miles from the city of Baltimore, and commanding a view of the harbor, and bay.

These Lands, are generally in wood; good water is found at a little distance from the surface; and the situation is high, and healthy. As these Lands are laid out in a village, extending from the Frederick Road to the Elk-Ridge Landing Road, a good neighborhood will soon be established; and persons who may wish to shelter their families, from the diseases of a town in summer, may be accommodated with one to twenty acres, affording all the advantages of an agreeable country residence; without an advance of cash for the first purchase. There are two streams of water passing through the Land, which render several of the Lots convenient for Butchers, Graziers, or Cow-keepers.

There is a fine quarry of Stone, and some sand on the premises, so that buildings may be erected cheap. A plat may be seen and the terms made known, by applying to Mr. Sam. Green, surveyor, No. 40, High street, Old-Fown; to Mr. Walter Roe, 46, South street, or to
