Mr. Printer,

The following letters I received in answer to my request of the writers, their opinion of my Patent N. London Bilious Pills, as a public Medicine. 'Tis unnecessary to add that these gentlemen are distinguished characters. The offices they sustain are sufficient proof of their respectability, and I trust is the highest evidence I can give the public of the efficacy of my Pills. New-London, Sept. 9, 1867. SAMUEL H. P. LEE. Copy of a letter from John R. Watrous, Esquire, M. D. President of the Connecticut Medical Convention to the Proprietor. Doctor Samuel H. P. Lee, Colchester, Sept 26, 1867. Dear Sir—I have just received your letter of the 18th instant, requesting my opinion of your Bilious Pills. From what knowledge I have of them, I know of no deleterious effects, which they have ever produced, but believe them to be a good composition for the use they are designed. I can truly have no objections to their being in general use, and in the circle of my Practice, frequently recommend them; and believe the people in general give them the preference to any other Pill in circulation. I am sir, with much respect, Your most obedient, JOHN R. WATROUS. Copy of a letter from Dr. William B. Hall, a practitioner of much eminence in the city of Middletown, Connecticut—Teacher and Lecturer on the Theory and Practice of Physic; Treasurer of the Connecticut Medical Society, and Fellow of the same; to the Patentee, dated Middletown, September 14th, 1867, in answer to a letter requesting his opinion of the "Patent New-London Bilious Pills"—as a public Medicine. Doctor Samuel H. P. Lee, New-London. Middletown, Sept. 14th, 1867. Sir, I duly received your favor of the 9th instant requesting my opinion of your Patent Pills, as a public medicine, and the experience I have had from using them in my practice—I have to inform you Sir, that I have administered your Pills, more or less in my practice the six or 7 years past, and have found them equal, and in many instances, superior to any preparation I have ever known, in all cases where stomach and bowels required evacuation by the intervention of a cathartic. I view them peculiarly beneficial in southern climates, where almost all complaints are more or less of a bilious tendency—and in any region where cathartics are adopted as a curative indication, they are in my opinion, the most convenient and efficacious pill of any in use, being safe and easy in their operation. To travellers by sea or land, I think they must be eminently useful, having printed directions for using them which must be a convenience in cases where medical aid cannot be obtained.—To the public generally, they have another benefit annexed to them, which is of some importance, especially to the poorer class; that is, they are a cheap medicine, and by being prepared by yourself only, they have the best reason to expect that they are well prepared, & with some experience may be able to administer them in their families, with considerable success, and thereby save expense. Finally Sir, knowing as I do the component parts of the pill, I can with confidence recommend them as a useful and safe public medicine. I am Sir your most obedient servant. WILLIAM B. HALL. The above Pills are sold wholesale & retail in Baltimore by Warner & Hanna, J. Vance & Co.—In Geo. Town, Col. by Dr. Jno. Ott. May 3.

When the highly interesting object of the above Scheme of a Lottery is considered; together with the very flattering prospect it holds out to every person disposed to contribute Ten Dollars for so laudable a purpose as that of bringing a Collegiate course of instruction more generally within the reach of the Community, it is hoped it cannot fail to receive a prompt and liberal support from the citizens of Baltimore in particular, and the public in general.

When it is also taken into view, that the Baltimore College hath received the first sanction of the State, and that it already contains a number of students equal to that of most Colleges in the United States; and yet has no accommodations but such as are at the private expense of the principal professors—it is hoped the community will see in this mode of providing proper buildings, no design but what is indispensably necessary, and conducive to general interest.

Prizes will be paid, sixty days after the completion of the drawing, such as are not demanded within twelve months thereafter will be considered as generous donations to the above institution.
