Four Brick Houses to Rent.

ONE a handsome three-story House, the corner of Charles and Barre streets, suitable for a large family, at a moderate rent; one other a two-story House, with four rooms on a floor; both these houses have convenient back buildings, and possession may be had immediately; the other two houses are entirely new, well finished, moderate rents, and suited to small families.

Also to rent, for ninety-nine years, renewable, four Lots on Light-street extended on the water, opposite the centre of the Basin; each lot containing 26 feet front and running 80 feet deep, to a 20 foot alley, with privilege of buying out in fee.

Also for sale or to rent, for 99 years, renewable, one, two or three squares (or more, if wanted) of water Lots on the south side of the Basin, lying from opposite Ellico's wharf, down the edge of the Basin eastward, to a point of two thousand feet. It is needless to say any thing in praise of these water situations; more than that, an inheritance of pure health, and the best drinking water in the world is attached to it.

And for sale, a Plantation, containing between 4 and 500 acres, one half of which is heavily timbered, lying within 12 miles of this city, and convenient to good navigation; there is no standing or stagnant water or marsh on this land; it is a fertile, productive soil, and 100 acres of meadow may be made. The timber would doubly pay what is asked for the land. For terms of rent or sale, of all or any part of the above property, apply to

When the highly interesting object of the above Scheme of a Lottery is considered; together with the very flattering prospect it holds out to every person disposed to contribute Ten Dollars for so laudable a purpose as that of bringing a Collegiate course of instruction more generally within the reach of the Community, it is hoped it cannot fail to receive a prompt and liberal support from the citizens of Baltimore in particular, and the public in general.

When it is also taken into view, that the Baltimore College hath received the first sanction of the State, and that it already contains a number of students equal to that of most Colleges in the United States; and yet has no accommodations but such as are at the private expense of the principal professors—it is hoped the community will see in this mode of providing proper buildings, no design but what is indispensably necessary, and conducive to general interest.

Prizes will be paid, sixty days after the completion of the drawing, such as are not demanded within twelve months thereafter will be considered as generous donations to the above institution.
