DR. JEBB'S NATURE'S RESTORATIVE.

A BALSAMIC CORDIAL. THIS cordial, so justly celebrated throughout Great-Britain and the continent of Europe, for its superior efficacy in the cure of all disorders excited by nervous irritability, as well as in complaints of complete debility; whether arising from irregularities of living, long continued residence in warm climates, intemperate pursuits of excessive pleasures, or that destructive habit of inconsiderate youth which brings on so prematurely the infirmities of old age.

In removing pulmonary affections, asthma, and all disorders of the lungs, it is the most powerful remedy ever yet found, and the relief it has afforded even in the last stage of consumption, is without a parallel; with regard to its efficacy in this beneficial and unfortunately too prevailing disorder in this country (consumption) its superiority is such as to have supplanted every other medicine.

Those who in advanced life feel the consequences of youthful excess, will find themselves restored to health and strength, and all those melancholy symptoms removed, which are the general effects of such causes.

In short, animated by the uniform success this invaluable cordial has experienced in Europe, the thousands it has renovated, when bending under the pressure of nervous, consumptive or hypochondriacal disorders (many attested proofs of which, from eminently distinguished persons in that quarter of the globe, are now in possession of the proprietor here, some few of which are herein published) have determined the introduction of it upon this continent, where its efficacy must soon become so prized as to make it considered a beneficent remedy not to be dispensed with by those who are anxious to preserve or acquire their health.

The chief ingredient of this cordial is a plant, whose rare and precious salutary virtues were well known to the Arabians during the 8th and 9th centuries, when that people shone conspicuous over all the nations of the world for their learning and skill in eradicating baneful diseases incident to the human frame, renovating infirmity to vigor, and restoring the sickly to sound and rosy health, and which is known at this time by their descendants, and used and experienced as the most sovereign remedy for decayed constitutions, and every species of nervous disorders. This celebrated restorative plant has also been highly estimated for ages past amongst the most enlightened nations of Greece, and considered by those wise inhabitants as one of the first of their blessings.

This cordial is also rich and fine in flavor, most grateful to the palate, and the most enlivening to the spirits, of any yet offered to the public.

From the great number of affidavits and certificates in possession of the proprietor, the following highly respectable are selected, viz: CERTIFICATES OF the beneficial effects of Nature's Restorative

A BALSAMIC CORDIAL. Extract of an affidavit from Shafion D. Sutton, Esq. South Audley, St. Grosvenor Square. From a long residence in Bengal and other warm climates, my health I found gradually wasting away, a general sickness and debility pervaded my constitution, my nerves shattered in the extreme, and this accompanied with dejection of spirits and a strong hypochondriac that alarmed me; in vain I sought the first medical advice, my appetite and digestion had entirely failed me, and traveling I found of no use in restoring them; it was in this reduced state that I heard of your surprising cordial Nature's Restorative, and until I had used four bottles, I felt but small relief, when I began to find a most powerful and invigorating effect, my spirits to assume a calm serenity, and my nerves such composure as to remove every disagreeable agitation my appetite and digestion returned soon after, and that pure state of health restored to me I thought lost forever I treat that no means may be spared to give this singular case publicity, that others under similar complaints may know the remedy and reap such advantages as I have.

Sworn before me, one of his majesty's justices of the peace for the city of Westminster. PH. NEVE, Esq.

Extract of a letter from Duke Allan, Esq. Devonshire-street, Portland Place. I cannot refrain from making known to you, the great benefit I have derived, from the effects of my taking your Nature's Restorative. For years I had been troubled with a dreadful nervous complaint, depression of spirits and a general debility, so much so, as to despair of ever knowing health again. Your powerfully invigorating cordial being most strongly and respectfully recommended, I was fortunate enough to enter upon a course of it, and after having taken two bottles, I found my spirits beginning to recruit, and in a short time my whole system so invigorated, as seemed to give me new life, and restored me to perfect health; I feel so grateful for this blessing, that I am extremely anxious it should be made as fully known to the public as possible.

Mrs. Naylor, of Bury, writes that she had for a long time been a martyr to a despondency of mind, and irritation of the nerves, accompanied with a throbbing head ache and pains in her side, that rendered life a burthen to her. Every medicine she had prescribed together with the use of the warm bath and electricity was applied, but her disorders rather increased than diminished; finally she was so strongly recommended to take the cordial Nature's Restorative, that she discontinued every other remedy and stuck to that alone. The effect operated upon her health as it seemed by magic; in a month her mind and spirits resumed calmness attended with cheerful ideas that visited her whole frame, removed the irritability of the nerves, and gave a strength to the system which drove away the pains in the head and side.

Mrs. Naylor strongly urges this, her extraordinary case being universally known, and wishes much to contribute her assistance thereto.

JOHN FORTESCUE, EDGAR ATKINS, } Witness. Extract of a letter from the Hon. Mrs. Elizabeth H. M'Curry.

However repugnant it may be to the delicacy of a female, it would be unjust were I to keep concealed the great services I have derived under the most afflicting state of health,

from your fine cordial, Nature's Restorative; for many months I had been oppressed with extreme weakness in the stomach, great irritation of the nerves, a consumptive tendency that had made alarming progress, together with a most severe and incessant cough, that threatened dissolution. I had tried the first prescriptions but to no purpose, at last I was advised to take the Nature's Restorative, and from the use of a few bottles, the feverish nervous irritability ceased, my strength rapidly increased and renovated by it, that I felt no consumptive tendency since—my health indeed is satisfactorily re-established. Those who have known the want of health, and can thereby appreciate the blessing of regaining it, will not wonder I should be solicitous of making my case known, which I hope may be made so public that many others like myself will have cause to rejoice at having tried the efficacy of your never to be sufficiently estimated cordial.

When the highly interesting object of the above Scheme of a Lottery is considered; together with the very flattering prospect it holds out to every person disposed to contribute Ten Dollars for so laudable a purpose as that of bringing a Collegiate course of instruction more generally within the reach of the Community, it is hoped it cannot fail to receive a prompt and liberal support from the citizens of Baltimore in particular, and the public in general.

When it is also taken into view, that the Baltimore College hath received the first sanction of the State, and that it already contains a number of students equal to that of most Colleges in the United States; and yet has no accommodations but such as are at the private expense of the principal professors—it is hoped the community will see in this mode of providing proper buildings, no design but what is indispensably necessary, and conducive to general interest.

Prizes will be paid, sixty days after the completion of the drawing, such as are not demanded within twelve months thereafter will be considered as generous donations to the above institution.

Levigated Charcoal Dentifrice

This preparation of Charcoal is warranted by the proprietor to be entirely exempt from any acids, which are the basis of the generality of Tooth Powders in common use, and which, though they possess the property of whitening the teeth in a short time, may by frequent use chemically destroy the enamel, and thereby produce the effects which the powders are employed to prevent.

The Levigated Charcoal Composition Dentifrice possesses the desirable qualities of rendering the teeth beautifully white, destroying the factor arising from carious teeth, which so disagreeably contaminates the breath, and of stopping the progress of the scurvy in the gums; at the same time it is incapable of either chemically or mechanically injuring the teeth.

Sold (by appointment of the proprietor) only in Baltimore by EDME DUCATEL, Apothecary, Chemist and Druggist, No. 26, Market-street. Where may also be had, DURABLE INK.

For writing on linen with a pen, which nothing will discharge without destroying the linen. The utility of this preparation, whenever such an article is wanted need not be pointed out. Initials, names, cyphers, crests, &c. may be formed with the utmost expedition, and without the incumbrance or expense of any instruments; and will be found to stand every test of washings, buckings, acids, alkalis, &c. which oily and other compositions will not. If written on linen as it comes from the loom, it firmly stands the bleaching. It is also a much better as well as a more durable criterion of a person's property, than initials made with thread, silk, or instruments frequently used for this purpose. may 10. 2aw3m
