THE ROBBERY OF THE PATENT OFFICE.—*Singular Discovery.*—Recorder Lee, of Philadelphia, in consequence of information received by him from Washington city, on Wednesday night, caused to be made a thorough search of the cesspool in the rear of the house No. 9 Wallace street, Spring Garden, occupied for a number of years, by Thomas Shuster, alias "Tom Hand," who is implicated as one of the principals in the robbery of the Patent Office. The Philadelphia American says:

At the bottom of the well were found two large skeleton keys, a number of pounds of printing types of different founts and sizes, and the broken pieces of the original bottle that held the Attar of Rose, which was among the valuables recently stolen from the Government by the robbers. The bottle, which was one of peculiar shape, we hear, has been clearly identified by the broken fragments. The articles taken from the sink will be sent to Washington in charge of a police officer on to-morrow. It will be remembered that the valuable perfume —the Attar—when dug up from the cellar at the house of the Joneses, in New York, was in another bottle, into which it had been emptied.

Henry B. Jones was arrested on Thursday for receiving the Government Jewels, knowing them to be stolen, and Philander Jones, his brother, was also arrested for perjury, in swearing that he did not know Shuster, alias Tom Hand. Each of them were held to bail in $1000.

The Lancastrian, a Loco Foco paper in Pennsylvania, has the followinw frank confession:

"The democratic party requires purgation. There is too much rottenness and corruption in it. It has blinked at deviations from political rectitude so long that many seem to think these deviations essentialities."

If *all* that is corrupt is to be purged upon the Loco Foco party, the result will not be unlike that of the fellow who took too powerful an emetic: he threw up *everything* but the soles of his boots. —*N. Y. Courier.*

We are gratified to learn that all matters of difference which have remained unsettled between the Chesapeake and Ohio Canal and the Alexandria Canal Companies, referred to in the proviso of the act of the General Assembly, guarantying a loan of $200,000 for the purpose of putting the former canal in order below Dam No. 6, have been amicably and satisfactorily arranged between the two Companies. We presume that the Board of Public Works will also be satisfied with the arrangement.—*Alex. Gaz.*

A GALAXY OF WHIG CITIES!—Every City in the Empire State is Whig! This has never before been the case, at the same time. Look at them!

BUFFALO,	SCHENECTADY,
ROCHESTER,	ALBANY,
AUBURN,	TROY,
SYRACUSE,	HUDSON,
OSWEGO,	NEW YORK,
UTICA,	BROOKLYN.

We may add, in addition, that more counties have a majority of Whig Supervisors, and the aggregate number in the State is greater, than ever before! We point, with pride and pleasure, to these gratifying indications of public sentiment. —*Erie Journal.*

RYE IN HEAD.—A bunch of rye comprising thirteen stalks, *in head*, has been sent to the editor of the Germantown (Pa.) Telegraph, which was cut on the 14th instant, on the premises of Mr. Samuel Keyser, in that borough. The stalks were two feet in height. The Telegraph says too that the crops of wheat and rye every where indicate an abundant harvest.

CANADIAN TARIFF.—A despatch from Montreal, dated the 13th, says that the new tariff has fixed the duties on agricultural imports from the States, the same as Canadian products of like character pay the United States. Other merchandize, except groceries, pay a tax of 10 to 12½ per cent. on actual value.

We learn from the Catoctin Whig that Catoctin Mountain was beautifully illuminated a few nights ago, at the expense of several hundred cords of wood, several thousand rails, and other timber ready for the marker.

HOME INDUSTRY.—We find in the National Intelligencer, a communication from a "Southerner," who says: "It is indeed strange that all the Southern States do not unite in solid phalanx in favor of protecting home industry of every description, and by consequence elevate their fortunes. *By their own acts they are gradually impoverished.* If the frugal, industrious people of the New England States had possession of the South, they would in a few years make the South the Eden of the world." There is truth in these sentences. The worst foe of the South is faction. She is sacrificed by her selfish and ambitious politicians. No section of the country devotes so much talk and time to public affairs, and in a spirit so anti-utilitarian.

Mr. Meredith, the Secretary of the Treasury, has issued an excellent circular to the chiefs of all the bureaux in his department. The circular states that the public interests require that every officer should do his duty promptly and efficiently, and that every officer should do his duty thoroughly and without unnecessary delay. The circular requires a statement of the condition of the work of each office and officer, and directs that all work in arrears shall be speedily brought up, and that to effect this object the clerks, who have been negligent, shall be required to work extra hours.

This is an admirable movement, and we trust that it will be extended to all the other departments of the public service.

THE JOURNAL.

ROCKVILLE, MD.

SATURDAY, :::::::::: APRIL 28, 1849.

☞ We learn from the "Baltimore Patriot," that the Maryland appointments to offices will not be made until some time in May. They have pretty much all been decided upon. We hope that those of our county who have applied, may be successful. There are not many. Most of our folks who are competent to fill offices, can do better by attending to other thing at home. The life of an office-holder is, by no means, enviable—it is a life of the worst kind of slavery. We mean the subordinate offices—clerkships, messengers, &c.

☞ Many of the Democratic Journals are amusing themselves at the groanings of the "Union," in regard to the removals from office, which have taken place since the inauguration of General TAYLOR. The New York "Evening Post," a leading organ of that party, justifies, in every instance, the removals which have been made, and says that the groans of the ex-organ are ridiculous, and that it has no right or cause to complain. We think it would be better taste in the "Union" to bear these things patiently and silently.

☞ Removals from office are still slowly going on. Our Democratic friends think that there has been proscription, Whigs think differently. One thing is sure, that if there be proscription, the precedent was established by former Presidents. We confess that we hoped that removals would only be made when the incumbents were found to be unworthy or unfit, and we have yet to be shown that any have been made for different cause.

☞ We hope that those persons who are locating in our county, will follow the example of Mr. PRIBRAM, a German gentleman, who recently purchased some poor land near this place. He has gone to work right in the way of improving, using Guano and other manures. Mr. P. has also commenced a fine dwelling. In a short time, we doubt not, he will have a fine farm. Those who have poor land, will do well to expend all their surplus means in manures—it will amply repay them.

☞ On Tuesday last, about 12 o'clock, M., an old lady, of the name of Mrs. PRESTON, between 60 and 70 years of age, was found murdered in her house about four miles from Barnesville. She had about forty dollars in cash in her possession. We learn that no clue has yet been had to the perpetrator of this foul deed. That the murderer will be discovered and made to suffer the penalty, we have no doubt. It rarely happens that a murderer escapes. Such acts are seldom committed in this county.

☞ We invite the attention of our readers to the advertisement of VEIRS & HIGGINS, which appears in our paper to-day.. The stock of Spring and Summer Goods just opened by these gentlemen, is equal, in richness of style and variety, to any ever brought to this market.

Without any desire to puff, we feel constrained to say that we have never seen in a country store, a better selection and more general assortment of goods; and what is better, having priced goods elsewhere, we know that they ask no more for them, than do the retail dealers of Baltimore and Washington. Believing that all who desire cheap and fashionable goods can be supplied at their establishment on as good terms as in the county or the District cities, we ask our friends to call in, and, at least, examine their assortment, before purchasing elsewhere.

☞ We refer the readers of the Journal to the advertisement of W. B. VINSON, Jr., in to-day's paper. Mr. V. has taken the stand formerly had by Mr. NICHOLAS GASSAWAY, and is determined to keep a good assortment of articles, and to sell them as low as they can be had elsewhere. As he is a new beginner, we hope our friends will not forget to give him a call.

☞ We are happy to learn that the Peaches are not totally destroyed, in this county—so say a number of gentlemen who have lately examined theirs. We also learn wilh pleasure, that the apples have not all been killed; at any rate, we shall have some fruit, which, a few weeks ago, we thought very doubtful.

☞ The "Lee Farm," (Burgundy, of more than 300 acres,) has been purchashed by Mr. JAMES SHAW, at *four dollars* per acre. This land lies within a mile of Rockville, about 12 miles from Georgetown and 14 from Washington City; is of a kind soil and can be easily improved. We consider the purchase a great bargain.

☞ We had a pleasant rain on Wednesday last which, in addition to what had fallen a day or so previously, greatly improved the appearance of the Wheat—it having been put back some by the recent cold weather.

APPOINTMENT.—We learn from the Frederick Examiner, that JACOB FAUBLE, Esq. has been appointed Postmaster at that place.

TENNESSEE.—James H. Thomas (democrat) has been nominated for re-election to congress in the Columbia (Tenn.) district. Maj. Wm. H. Polk, brother of the ex-President, opposes him as an independent candidate.

MOB LAW IN WISCONSIN.—A Mr. Coddings, in attempting to deliver an anti-slavery lecture at Shullsburg, Lafayette county, Wisconsin, was mobbed, pelted with eggs, and driven off

---

MILITARY VISIT.—The Independent Greys of Georgetown are to visit Leesburg, Va., on the 15th of May.

☞ We are sorry to find that, in the rancor of partizan feeling, some of the opposition press, the Union in the lead, have commenced their hostility to the Administration of General TAYLOR. Before the measures of the Administration have been, in any manner, promulgated, this opposition shows its front, and convinces us that, right or wrong, a merciless warfare is to be waged. The following just views of the "Clipper," will find a response in every candid mind:

MEASURES OF THE ADMINISTRATION.—The Inaugural address of the President is to be taken as an index to the course of the administration, there exists as yet no substantial ground for the organization of an opposition—for the principles contained in said address are unexceptionable. Beyond that address we have no official indication of the course which will be pursued by the administration; and we think that prudence would dictate the propriety of awaiting further developments before an opposition be raised. There is, in fact, nothing against which to wage war, excepting it be the few dismissals from office which have taken place, and they are so insignificant as to be unworthy of notice. Besides, it was expected that removals would be made of all incompetent officers, and of those who had not discharged their official duties with due regard to the public interests,

The administration has been little more than one month in power, and is hardly yet initiated into the routine of business. It is entitled to be fairly judged by the people; and to judge it fairly, time must be given. If the tree is to be judged by its fruit, it must at least have the time to bear before sentence be pronounced against it. But such is not the course which has been pursued towards the administration. Before it has acted on any of the great measures which have agitated the country, it has been denounced. The Union and other papers are unsparing in their condemnation, and yet have no substantial ground for censure. As to the slang about the operations of the guillotine, and the lamentation over a few public officers who have been removed, they are unworthy of consideration. Rotation in office has heretofore been a favorite doctrine with those who now condemn removals even for cause; and none more loudly lament over dismissals from office than those who set the example of proscription. The sincerity of profession is tested by practice; and where the two disagree the people can discern the inconsistency.

Premature opposition to an administration may excite disgust, but cannot make converts; for there is something so manifestly unjust and repugnant to correct feeling, in condemning without a hearing, that public sentiment revolts at it. In the President's first message to Congress, he will probably explain at large, the principles by which he means to be governed; and it will then be time enough to organize an opposition, if his principles be objectionable.

THE COUNTRY PRESS.—Some of the papers at the fag end of our State suggest the propriety of holding a Convention at Frederick or Easton, to be composed of the editors of the country press of Maryland, for the purpose of promoting their interests—the city press to be excluded. The Hagerstown Herald of Freedom thinks that some of the Eastern Shore editors could much better promote their interests by improving the appearance of their papers than by attending conventions for the purpose. And we of the Catoctin Whig think so too. We would suggest to our Eastern Shore brethren the propriety of applying a small quantity of Guano to their old ramage levers, and also sprinkle a little on their farmers' geese, which we believe will have a greater influence in promoting their interests than all the conventions that could be convened for fifty centuries to come. In all sincerity, we recommend the Guano—nothing like trying the experiment.

Mr. Greely introduced a resolution in the House of Representatives during its late session, that this Union of States will hereafter be known and officially designated by the name or appellation, Columbia, in grateful acknowledgment of our obligations to, and in tardy atonement for the injustice hitherto suffered by, the great discoverer of this continent. It was left with the "unfinished business."

SURGICAL OPERATION.—On Thursday morning last Dr. Samuel Tyler, of Frederick, successfully operated on a little girl; about 6 years of age, for the cure of club foot. The operation was performed in less than half a minute; the foot being restored to its natural position.

VIRGINIA.—Edgar Snowden, Esq., the editor of the Alexandria Gazette is the Whig candidate for the General Assembly from Alexandria county. The Democrats have resolved not to oppose Mr. Snowden's nomination by running a separate candidate.

NEW COUNTERFEITS.—Bicknell's Reporter notices $10 spurious notes on the North Western Bank at Wheeling—vignette, two females and a steamboat.

ARKANSAS ELECTION.—The contest for Governor, at the late election in Arkansas, has been a "neck and neck" race. At the last accounts Roane, dem. was 62 votes ahead. It is supposed he is elected by a few votes.

THE WAR IN EUROPE.—The Turkish Sultan expects to have an army of 250,000 men assembled before autumn, with which to oppose the hostile designs of Russia, so that the battles in Italy do not, by any means, settle the question of peace or war in Europe.

At a recent real estate sale in Cincinnati, the "Walker" farm, on the outskirts at Fairmount, which was bought last fall at $400 per acre, was sold for $4000 an acre.

The Boston Post is one of those Locofoco papers that do not cry over every removal from office. It rather makes merry over the matter, as thus:—

"How do you like General Taylor?" an old Whig was asked a few days since. 'First rate,' said the old coon. He *turns out* a great deal better than we expected.

We are gratified to learn, by our letter from Annapolis, that Judge Magruder has so far recovered from his last illness, as to be able to resume his place in the Court of Appeals.

NOT GUILTY.—The Annapolis Republican says that the jury in the case of Baker Johnson for shooting Allen Meek, brought in a verdict of not guilty. Johnson is an inoffensive man, and had no intention of shooting Meek, it being purely accidental.

MARYLAND SENATOR.—Joseph M. Palmer, Esq., of the legal profession, is suggested as a proper person for U. S. Senator from this State. We have also seen the name of Hon. John Wethered mentioned in the same connection.

The fruit crop in the vicinity of Washington, the news, of that city, thinks is not wholly destroyed. With some others, the editor thinks there will be a tolerably fair crop.

FOR CALIFORNIA.—The schooner *Creole* left Baltimore on Tuesday for Chagres, with the "Baltimore and Frederic Mining and Trading Company" on board, consisting of thirty persons from that city and Frederick county, who intend crossing the isthmus to California. The company has a capital of thirty thousand dollars, each member contributing one thousand dollars. It is one of the most admirably provided parties that have left for the gold region. The members are all of the highest respectability, and the articles of association are such as will secure the most perfect order and regularity in all their transactions. They have sent out in the ship Andalusia (which sailed a few days since for California via Cape Horn) a steam saw-mill and a flouring mill, a dredging machine, a pile driver, suction engine, ten carts and wagons, five boats, a house, farming utensils, a great variety of merchandize for the purpose of trading, and provisions for two years. They also take with them direct five India-rubber tents, and sufficient provisions for eight months. Mr. George Waesche is the President of the company.

The ship *Louis Philippe* is to sail from Baltimore for Chagres about the 1st of June, and the brig *Osprey* in the latter part of May, provided a sufficient number of passengers offer.—*Patriot.*

AN ENTERPRISING GOLD HUNTER.—A specimen of the genus loafer contrived recently to get from New York to Chagres without paying a cent. Thence he walked across the Isthmus, and through the connivance of a fireman, concealed himself on the steamer California, for San Francisco. He made his appearance on deck when three days out—too late to get rid of him, and he thus accomplished, by impudence and Jeremy Diddlerism, a voyage that costs others hundreds of dollars.

THE SOUTH CAROLINA 'COMMITTEE OF PUBLIC SAFETY.'—We learn by the Columbia (S. C.) Telegraph, that the 'slavery extensionists' of the Palmetto State have formed 'Committees of Safety and Correspondence,' throughout the commonwealth. These local committees of the different districts are to meet in State Convention at the Capital on the 1st Monday in May, for the purpose of perfecting a thorough organization to communicate their designs. These Safety committees do not publish their proceedings. Some of the South Carolina papers state that they meditate on proposals of non-intercourse with the North.

LOVE, JEALOUSY, AND A HOLE IN A JACKET.—A negro woman named Helen, the property of the Hon. P. B. Hopper, is now confined in the jail at Centreville, (Md.) for firing a pistol at her "admirer," because of his attentions to another of the ebony "fair sex," whereby his feelings were considerably hurt, and a hole made through the back of his jacket.

A HEROINE.—Mr. Johns was knocked overboard at Cincinnati, and saved by his daughter, aged 18 years, who plunged in after him.

Correspondence of the National Intelligencer.

BALTIMORE, APRIL, 25—5 P. M.

There is nothing new here to-day. We are in hourly expectation of news from Europe by the steamer now due at Halifax, with one week's later advices.

I am informed by gentlemen from the country that the fruit has not suffered so much as was apprehended from the recent frosts and cold weather.

Flour is firm to-day. There were small sales of Howard street brands at $4.50, and more buyers than sellers. Sales of 800 barrels City Mills at $4.50; rye flour $3; and corn meal $2-50.

Wheat is scarce. Small sales of red at 98 a 100 cents; white do. 105 a 110. Corn is heavy; sales of white at 44 a 45 cents, and yellow do. 50 a 52; oats 24 a 28; rye 56; whiskey 20 a 20 1-2 cents, in barrels.

Provisions unchanged. Mess pork $11; prime $9; lard 6 a 7 cents, in barrels and kegs. Beef cattle $3.50 per 100 lbs. gross; hogs $5 a 37.

Stocks heavy. Sales of $1,600 Maryland 6's at 98; $1,000 Baltimore 6's, 1890, at 100 1-2; $1,300 Baltimore and Ohio Railroad Dividend Bonds of 1854, 94; 30 shares 38 1-2 a 39, a decline.

DEATHS.

Departed this life, on Wednesday, the 14th instant, at his residence in Hyattstown, Mr. JOSIAH WOLFE, (aged about 30 years) leaving a disconsolate widow and five small children to mourn their loss.

Few young men enjoyed the esteem and confidence of those among whom he lived, in a greater degree, than the deceased, and his death has left a void in the neighborhood where he resided, sadly and mournfully felt by all who knew him and appreciated his great worth.
