ENGLISH EDUCATION.

THE Professors of Easton Academy deem it incumbent on them to inform the gentlemen of Easton and its vicinity, that in the English department of the Academy two classes have been opened, which are to be confined solely to the elements of Reading, Writing, Grammar, Arithmetic and Geography with the use of the Globes and Maps, all simplified to the capacities of children

As emulation and application increase in proportion to the number in a class, therefore the same Lecture given on any of these branches, not being as instructive to four, as it would be to sixteen pupils, induced them to publish this: and they are, through their exertions and care, persuaded that a boy of moderate abilities must, by being one year in such a class, lay the foundation of a solid English education.
