Feb. 19.

The bill to elect the Senate immediately by the people was read a second time on Monday last.

Mr. Eccleston moved to amend the bill so as to require ten, instead of five years residence to entitle a foreigner to serve as a Senator.—Determined in the negative.

Mr. Worthington moved to amend, by inserting twenty one instead of twenty five years of age, to qualify a person to serve—negatived.

Mr Montgomery moved to strike out five, and insert two years residence in the state to qualify—negatived.

Mr. Eccleston moved to strike out the following section:—

"*And be it enacted*, That in case any new county should hereafter be made in the state, that the representation of the western shore in the Senate shall not be in a greater proportion to the representation of the eastern shore in the Senate than nine to six, as it now is, by the constitution of the state?"—Determined in the negative.

Mr. Speed moved to reconsider the first section of the bill for the purpose of giving the city of Annapolis a senator distincly from the county of Anne Arundel?—Determined in the negative.

The question was then put, Shall the said bill pass? The yeas and nays being required appeared as follows,

Affirmative—Messrs. Speaker, Harris, Hodges Parran, Dalrymple, Chapman, Rogerson, Shower, Worthington Turner, Bennett, Lloyd, Reyner, Teackle, King, Jones, Sullivane, Eccleston, Travers, Thomas, Henderson, Grubb, R. C. Edelen, Wootton, Speed, Nicholson, Williams, Tingle, Parker, Hooper, Barnes, Cromwell, Hope, Norris, Jarrett, Montgomery, Brown Howard, Tyson, Merrick, Beall, Lansdale, Hoffman, McMahon, Lantz, Klipstine.—46.

Negative.—Messrs. Hawkins, Gough, Kilgour, M'Clean, Gantt, J. Edelen, Dennis, Steele, Ewing, Peach, Carroll, Wright, Farquhar, Barwick, Kemp, Boon, Bowles, Fouke, White, Wilson, Lee—21.

Resolved in the affirmative, and the bill sent to the Senate.

The bill to allow Baltimore four delegates, has passed the Houses.

The House of Delegates were occupied on Thursday, with the bill reported by Mr. Maxcy, from the Committee of Ways and Means to provide for the prompt settlement of public accounts; which was amended and finally passed, yeas 40, nays 33. The salary proposed therein for the western shore states agent is $600, and for the eastern shore agent $350.

The resolutions approving of the administration of James Monroe, President of the United States, was read a second time and passed the House of Delegates on the 10th inst. by a vote of 52 to 9. Those in the negative were Messrs. M'Clean, Spencer, Lloyd, Reyner, Jones, Parker, Wright, Williams, and Barwick. Some of those gentlemen, and Mr. M'Clean particularly, voted in the negative only from an objection to the principle of legislating on any such subject. He asked leave to enter this reason for his vote upon the journal, but the House refused permission.

The legislatures of several other states have expressed similar sentiments respecting Mr. Monroe's administration within a few weeks past, with great unanimity.—Md. Rep.

The two branches of our Legislature have agreed to close the present session on Friday the 25th inst:

Baltimore, Feb. 17.

IMPORTANT FROM PERU.

BOLIVAR COMPLETELY VICTORIOUS.

We are indebted to Mr. Beaumont, of the Kingston, (Jamaica) Public Advertiser, for his paper of the 21st January, containing, in Spanish, an account of a decisive victory obtained by Bolivar over the Spanish army, on the 9th of December—This intelligence we learn from Captain Franklin of the schooner *Elizabeth*, was brought to Kingston by a sloop of war in a short passage from off Carthagenia.—The article giving an account of this important event, is copied from the *Impreso de Lima*, and we translate it as follows:

"Lima, Dec. 18th, 1824.

"GREAT VICTORY——DECISIVE TRIUMPH—The army of the Liberator, under the command of General Sucre, completely routed the Spanish Royal Army on the 9th of the present month on the plains of Guamanguilla—General La Serna, who commanded it, was wounded and taken prisoner, with Generals Canterac, Valdez, Caratalla, and other chiefs, officers and troops—the whole of the baggage, arms, and warlike stores of the enemy, are now in our power, Lieut. Colonel Medina, Aid-de-Camp to his Excellency, the Liberator, was the bearer of the official despatches of this action, and it is much to be lamented that this officer was assassinated in Guando by the rebels of that town—however, all the authorities in the immediate neighborhood of the battle, give official information of the triumph of our arms—adding that General Canterac, who took command of the Spanish army after La Serna had been wounded, capitulated to General Sucre, agreeing expressly that the fortress of Callao should be delivered up to the army of the Liberator.

The ninth of December, 1824, has completed the day which dawned so brilliantly on Junin—At the beginning of this year the Spaniards threatened to re-conquer America with this army, which now no longer exists—The plains of Guamanguilla witnessed the Victory, which has terminated the War of Independence on the continent of Colombus.—This has decided the question which divides Europe, which immediately interests America, which is of the first importance to the whole human race, and the influence of which will extend, without doubt, to thousands of succeeding generations—That question is, whether the world must be governed by the absolute power of those who call themselves *legitimates*, or whether the epoch has arrived, when the people shall enjoy their rights and liberties. In fine, the army of the Liberator has solved the problem, and raised the last monument which was wanting to his glory—Gratitude shall inscribe on it the names of the Conquerors of Guamanguilla, and of that illustrious Genius who has directed the war, who has saved Peru, and who, in the events of February, only discovered new roads to glory. His fame shall last to the end of the world, and this is a sentiment cherished by every heart that beats for liberty."—[*Impreso de Lima.*

Since the foregoing was translated and put into type we have received the *Kingston Chronicle*, in which the Editor states that he had received the *official Gazette* containing the accounts of the above victory—It was brought to Kingston by His B. M. schooner Swallow, in four days from Carthagena.

Great rejoicing took place at Carthagena, in consequence of the defeat of the Royalists and the capture of Lima by the Liberating Army, under General Sucre, General Bolivar being absent on account of extreme indispositon. Several valuable Spanish merchantmen that were at Callao, fell into possesion of the Patriots.

The Venezuelian frigate Com. Chitty, was fitting out at Carthagena to take despatches to England from the Colombian Government announcing the total annihilation of the Spanish forces in the South Sea. A doubloon bounty was paid to able bodied seamen who enlisted on board the Venezuela.

A fine large Spanish schnr. fitted out at St. Jago de Cuba for the Coast of Africa, was captured off Cape Maize by a Colombian cruizer, and carried into Carthagena on the 12th instant.

John Kemp	Peter Webb, and
Alex. B. Harrison	Bennett Bracco.
Ennalls Martin, Jr	

JUSTICES OF THE ORPHANS' COURT.

Stephen Reyner	Lambert Reardon.
William Jenkins	

BANK DIRECTORS.

The House of Delegates of Maryland on Thursday elected John S. Skinner a director in the Bank of Baltimore for the ensuing year. On the same day the Legislature elected, as directors on the part of the state, for the Union Bank of Maryland, Alexander C. Bullitt and John P. Kennedy; for the Mechanic's Bank of Baltimore, William Steuart and Tobias E. Stansbury; for the Commercial and Farmer's Bank of Baltimore, Charles Egerton and John Barney; for the Farmer's Bank of Maryland, Theodorick Bland and Nicholas Brewer, for the branch of the Farmer's Bank of Maryland, at Easton, William Clark and Lambert W. Spencer; for the Hagerstown Bank, David Schnebly and John Vanlear jr.; and for the Elkton Bank, Jeremiah Taylor.

Washington, Feb. 14.

The leading subject of conversation in the circles of Washington, since the Election of a President has terminated, is as to who are to compose the Cabinet of the President elect.—Conjecture is completely at fault, but not the less busily employed on the subject, it being very evident that the composition of the Cabinet is materially connected with the character which the next administration is to sustain.—By the election of Mr. Adams and Mr. Calhoun to the higher trusts, the offices of Secretary of State and Secretary of War become vacant, and it is understood that Mr. Crawford has declined the earnest request of Mr. Adams, which was made to him immediately on his election, to remain in the station which he has filled for the last eight years. There are, therefore three great Departments to be filled immediately after the inauguration of the new President, which all our readers know, is to take place on the 4th day of March next. Nat. Int.

William Henry Harrison, formerly a Representative in Congress, previously Governor of Indian, and Commander on the North Western frontier during the late war, has been chosen a Senator of the United States from the State of Ohio, to succeed Mr. Brown, whose present term of service will expire on the 3d day of March next.—ib.

Feb. 16.

The news of the result of the Presidential Election seems to have been received with more equanimity than by some had been anticipated. In Philadelphia though many were disappointed by the result, private letters say, there was neither tumult nor clamor among the crowd who surrounded the Post Office on the arrival of the mail. At New York it produced still less excitement. In the afternoon following the morning of the reception of the news, the Statesman says: "our city is as quiet to-day "as it was yesterday, and we have witnessed no "demonstrations of extravagant joy, or deep "regret." This corresponds exactly with the aspect of things at the Seat of Government on the consummation of the election, and there is reason to hope that the peaceable acquiesence in the result has been universal. Exhibitions of violence on the occasion, by the friends of either of the unsuccessful candidates, would have been as adverse to the wishes and injunctions of those gentlemen, as it would have been discreditable to their supporters.

With regard to the little disturbance in the galleries of the House of Representatives in this city, it was a slight ebullition of feeling, instantly checked by a sense of propriety in its authors and rebuked by the authority of the House.—The comparison instituted by the Editor of the New York Statesman, between the noises here, and those in the galleries of the New York Legislature, on a recent occasion, altogether fails. The clamors there were permitted; here they were not. There, the Legislature acted under the influence of the galleries. Here, though the action was complete, before the least sound was heard from the gallery, yet even its enunciation was arrested until the House had protected its own dignity, by excluding those who, for a moment, had forgotten what was due to it. It is not necessary for us, therefore, in the recent case, to "correct" the procedure in the gallaries; it was corrected on the spot, in a manner worthy of imitation by the Legislature of every state in the Union.

One of the most uncommon circumstances of the late Election of President by the House of Representatives, was this; that, of the 213 Members composing the House of Representatives, every one was on the ground. One of them, indeed, was not in a condition of health to attend the house, but he was the only one in ill health. The ages of the Members of the House of Representatives average probably 45 years. Here, then, are 212 persons, indiscriminately selected as far as their physical condition is concerned, all of them except three or four elected 2 years ago, who are in the full enjoyment of health and capacity for public business. This argues much for the general salubrity of the various climates of our extensive country.

Feb. 17.

THE CABINET.—This is the name given by custom to the Secretaries of the four Executive Departments and the Attorney General, collectively, when consulting and advising with the President. Speculations is yet busy, and much interest is felt as to who are to compose the Cabinet of the President elect; an evidence of which will be found in the Letter of "*Pro Patria*" on the preceding page. The letter is from the pen of a disinterested and independent Member of the House of Representatives, to whom it gives us pleasure to afford the means of presenting his views to the Public. Without thinking it necessary to except to those views, in any particular, it may be proper to say, that, had the writer presented any other names, the article would have been as readily inserted; and that our columns are open to any communications, from similar sources, on this subject.

If the rumor of the day is true, one of our correspondent's nominations cannot but be ineffectual. It is said, and we have no doubt of it, that the President elect has offered to Mr. Speaker Clay the office of Secretary of State, and it seems to be thought that he will accept it.

The only other fact, concerning the composition of the Cabinet, which rumor presents to us in a probable shape, is this—that the six New England States, as represented here, have spontaneously waived any claim they might be supposed to have had, to furnish a member of the Cabinet of the President Elect.

PRESIDENTIAL ELECTION.

The following is, we believe a correct statement of the votes as given by the Members of the House of Representatives, for the several candidates, on Wednesday last. Opposite the names of the members of the initial of the candidate for whom he voted Nat. Journal.

NORTH CAROLINA GOLD.

Letters from that part of North Carolina, in the vicinity of which Gold has been found, state, that there has been a considerable quantity of Gold found since November last, notwithstanding the inclemency of the weather. Somewhere near the source of Long Creek, a Mine has been discovered on the land of Mr. Barringer, who is thought to be enriched by it. Some say he has found, already, half a barrel of gold, while some limit the quantity to half a bushel. It is said to have been found on the side of a hill, between two strata of slatestone, and to consist of a mixture of gold dust and sand.—It was supposed that Mr. B. had already collected gold to the value of fifteen thousand dollars. Another letter states, that, in Cabarrus county, a week or two ago, a single lump of gold was found weighing 27 pounds! Our informant himself saw, a few months ago, one lump of more than four, & another of more than three pounds weight, that had been found. Nat. Int.

NATIONAL INDUSTRY.

The two facts we are now about to state are of infinitely more interest to the statesman and the patriot, and vastly more auspicious of an increase in national wealth than the facts stated in the above paragraph, however interesting they may be:

1. Within twenty miles round the City of Boston, there are now annually made *forty thousand pieces of* Flannel, each piece containing 46 yards [The largest quantity of the same article ever *imported* in any one year, was 55,000 pieces.]

2. Not a vessel now leaves the port of Baltimore (and we presume this to be true of other ports) for South American ports, which does not carry, as part of her cargo, *American Manufactures of Cotton* to the value of *from ten to twenty thousand dollars.*

MASSACHUSETTS MILITIA CLAIMS.

The vote of yesterday, in the House of Representatives, refusing to take up these claims makes it pretty certain that they will not be acted upon at all at the present session of Congress. ib

---

APPOINTMENTS.

By the President, by and with the advice and consent of the Senate.

Joseph Hill Clark, of Massachusetts, to be Consul of the United for the port of Lubec.

Daniel W. Smith, to be Consul of the United States at Refugio, Mexico, Rio Grande.

MEXICO.—Extract from a letter dated Alvarado, (Mexico,) January 8, 1825. "A few days ago the schooner Susan, Capt. Newman, from your port, was brought in here as a prize, on the charge of having been bound with supplies to the Castle.

"On the same day, the 3d inst. another schooner, American colors, name unknown, anchored between the city of Vera Cruz and the Castle, and is said to have been sunk at her moorings by a fire from the city—the Castle opened its batteries against the city, and the firing continued twenty four hours.

"To day, we are informed that another prize, Baltimore schooner, name and wherefrom unknown, has been made near the Castle:

"The aforegoing is disagreeable intelligence, and I fear the last capture may relate to some schooner expected from your port.—Fed. Gaz.

BACHELOR'S BALL.

The Boston Gazette states that one of the most splendid Balls ever known in Boston, was given on Wednesday evening, at the Exchange Coffee House, by a number of the Bachelors of that City.

Carpets were extended for the accommodation of the Company as soon as they descended from their carriages. The entries and stair ways were lined with rich drapery; ornamented with evergreens and flowers. The company were first received in an elegant Grecian Tent, and thence the Ladies and Gentlemen retired to their respective Drawing Rooms, which were rich decorated and accommodated. The Ladies' Drawing Rooms were furnished with costly curtains, couches, sofas, mirrors, &c.

For the Supper, nine tables, each about 40 feet in length, were spread with every domestic and foreign essential and luxuary that could be commanded—The tables were tastefully ornamented, and rendered brilliant by the reflection of the numerous lights and coloured lamps The Great Hall, 75 by 30 feet, was occupied by the devotees of the cotillion, quadrille, &c. The company began to assemble about 8 o'clock and attended the supper about 12, after which the dancing was resumed and continued to a late hour. The expense of this free will exceeded $2000. About 600 persons were present.

PATENTS.—The Boston Medical Intelligencer, in noticing Williams' patent lancet, has the following humorous hit at the *patent character* of our countrymen:

Patent trusses, patent teeth instruments, patent pills, and patent lancets, are in our opinion all of a piece;—and when medical men countenance and even patronize such useless efforts of human ingenuity they encourage artizans, who might be better employed, to labor entiretirely in vain. What is there in this country that does not go by patent? We were lately acquainted with a gentleman who wore a patent hat, bought patent boots with cork soles, and daily besmeared his toes with Conway's patent corn plaster; not satisfied with this, he crawled into a patent doe-skin shirt, and kept up his small cloths with patent suspenders; kept his chopped hands warm by patent spring back gloves, and finally falling sick of a fever, took forty dollars worth of patent physic from a patent doctor, and after languishing a while on one of the Jenckes' patent elevating bedsteads, he died; as all patent things generally do—prematurely, was placed in a patent ceder wood coffin, borne on a patent swing hearse, to a patent air tight tomb, where he now lies—a striking emblem of the numerous inventions which claim the protection of our American patent laws.

A letter from Thomas Parker, Esq. at Amsterdam, to Mr. Bannister of Newburyport, Mass. gives the following particulars of the dreadful devastation, by the flood at St. Petersburgh. It says, "5,000 people were drowned in the city, besides a number of prisoners that could not be released. A village near the city, called Emilianacks, was totally destroyed, and 8,600 people drowned. The militia, for eight miles round, were employed in picking up and burying the dead—500 oxen were drowned in the slaughter houses. The loss of sugar was to the amount of from four to five millions of dollars."

BREACH OF PROMISE OF MARRIAGE.

New York, Feb. 10—*McKee* vs. *Nelson.* Yesterday came on trial before the Hon. Judge Edwards, the interesting case of M'Kee vs. Nelson, for a breach of promise of marriage. The plaintiff proved the promise by shewing that the affair had so far progressed, that dresses had been purchased for the express occasion, and other preparations had been made for the celebration of the marriage. The parties are both very respectable; the defendant is well known as a celebrated classic teacher, in this city; has been hand for many years; and at the time the intimacy was broken off with the plaintiff, he was a widower, with six children. The Jury retired at 1 o'clock, and this morning returned a verdict for the plaintiff of 3000 dollars.

New-Berlin, Pa. Feb. 5.

SINGULAR PHENOMENON.

A Cow belonging to Mr. Samuel Kremer o East Buffalo township, in this county on the 24th ult. brought forth a calf, which, extraordinary to relate, had 2 heads, eight legs, and two tails. It would, in every respect, upon a slight examination, appear, as if two Calves were joined; but, however, on a close examination it proves to be but one animal. It was discovered by dissection that the back bone extended from one head to the other, and the paunch lay exactly where it appears to have been joined. Its length is 6 feet 4 inches.

[Union Times.

Middletown, Con. Feb. 9.

AN EAGLE.—As two gentlemen, of this City were out gunning in Upper Houses on Friday last, they discovered a Gold headed Eagle flying in the air. They fired and brought it to the ground. When the wings are extended, it measures across, between 8 and 9 feet.—*Sen.*

A paragraph in the Philadelphia Gazette says that—"The knowing-ones had certain intelligence, by half past 8 o'clock on Thursday evening, of the result of the Presidential Election, and that by keeping it to themselves they turned it to excellent account. One man is said to have lost twenty two thousand dollars by betting.

OHIO TOBACCO.—It is estimated that last year two hundred and fifty hogsheads were raised, and that at least one thousand will be raised the present year, in the county of Belmont, in the State of Ohio. This business is likely to prove much more profitable to the Farmers in that country, than raising grain or stock.

MARRIED.—On Tuesday evening last, by the Rev. Mr. Rawleigh, Mr. Andrew Chezum, to Miss Mary Corken, all of Dorchester county.

——, On Tuesday evening last, by the Rev. Mr. Bayne, Mr. James M. Lambdin, to Miss Ann Emily, eldest daughter of Freburn Banning, Esq. all of this county.

DIED.—In this county, on Tuesday the 15th instant, in the 27th year of her age, Mrs. *Mary Ferguson*, consort of Mr. William Ferguson.

——, in the City of Annapolis, on Thursday last, Mrs. *Elizabeth Lloyd*, one of the oldest and most respectable inhabitants of that place; one of the most amiable and excellent of women.—Her remains were brought over and deposited in the family burial ground at Wye House, on Saturday last.

EASTON AND BALTIMORE PACKET.

THE SCHOONER

MARIA.

THE SUBSCRIBER respectfully informs the citizens of Talbot and the adjacent counties that he has purchased the Schooner MARIA, and intends running her as a regular Packet, from Easton Point, Talbot county, once a week, to Baltimore, commencing on SATURDAY, the 19th inst. leaving Baltimore every Tuesday, and Easton Point every Saturday, morning at 12 o'clock—The above vessel is now in complete order for the reception of grain or freight of any kind—she will also carry passengers to or from Baltimore.

From the subscriber's knowledge of the Mercantile business, having been engaged in it for many years in Easton—and his acquaintance with the quality and price of almost every article that may be ordered for this market, he flatters himself that the public will find it to their advantage to favour him with a share of their patronage, and assures them that no exertions on his part shall be wanting to give general satifaction—The Schooner will be commanded by his brother, Henry Tomlinson, who is well acquainted with the business, and orders left with him or at the Drug Store of Thomas H. Dawson, in Easton, in the absence of the subscriber, will be thankfully received and punctually attended to.

The public's obedient servant,

JOHN TOMLINSON.

feb 22 w

IN TALBOT COUNTY COURT,

November Term, 1824.

On application of William McCaffrey, of Talbot county, by petition in writing to the Court aforesaid, praying the benefit of the Act of Assembly, entitled, "An act for the relief of sundry insolvent debtors," passed at November session, in the year eighteen hundred and five, and of the supplementary acts thereto, on the terms mentioned in the said acts—a schedule of his property, and a list of his creditors, on oath, as far as he can ascertain them, as directed by the said act, being annexed to his petition: and the said Court being satisfied by competent testimony that the said William McCaffrey has resided in the State of Maryland two years immediately preceding his application:—It is therefore adjudged and ordered by the said court, that the said William McCaffrey by causing a copy of this order to be inserted in one of the newspapers printed in Easton, once a week for four successive weeks, for three months, before the first Saturday in May term next, give notice to his creditors to appear before the said court, on the 1st Saturday in May term, aforesaid, for the purpose of recommending a trustee for their benefit, and to shew cause, if any they have, why the said William McCaffrey ought not to be discharged agreeably to the terms of the Act of Assembly aforesaid. Test,

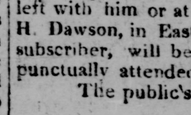

J. LOOCKERMAN, Clerk.
