AND
General Advertiser.

EASTON:

Tuesday Morning, Sept. 5.

THE BOAT RACE IS OVER.

This beautiful and interesting exhibition took place on Thursday last, as before arranged, at 'Easton Point' in the presence of hundreds of anxious and delighted spectators. The points and shores of the Tread Haven were covered, the wharves at the 'Point' were crowded, and the mirror like surface of the water was spread over with boats of all sizes and of all descriptions, filled with company, from the matchless sloops and schooners (for which the naval architects of Talbot have been so long celebrated) down to the little fishing canoe that used to be the pride of the aboriginal inhabitants on these waters.

The distance to be rowed was three miles—The judges being apppointed took their stations, and the contending boats, handsomely dressed off, came up to the starting buoys, each with four neatly dressed Oarsmen and a Cockswain, and presented a most delightful spectacle.

At the signal they started, and the judgment of the Cockswains and dexterity of the Oarsmen could not be surpassed—The day was serene and bright—the skill of the Oarmen caused the glittering blades to cleave the smooth surface of the water with precision harmonious to the eye and ear, whilst their vigorous arms propelled with graceful sweep the swift prows through the rapidly collecting foam. The boats fly over the bosom of the beautiful Tread Haven with inconceivable swiftness, and the receding shores rapidly retire from their view. The 'Lady of the Lake' (Mr. William B. Pacas's boat) came in, in superb style the Victor of the day in twenty one minutes twenty-eight seconds, and the 'General Freeman' (Mr. Reyner's boat) momently afterwards.

So fine was the contest that the cheerings and huzzas of the delighted hundreds were divided with the Victor and the Vanquished, and the day was given up afterwards to social harmony and enjoyment. [Gaz.

The U S. schooner SHARK, Lieut. Com. Norris, has arrived at Norfolk, from a cruise of ten months on the south side of Cuba, and last from Pensacola, in 12 days from the latter. The Shark has been absent from the U States nearly eleven months, of which time she has been only forty three days in port, has sailed eighteen thousand miles, and has returned without losing a man. The Constellation, Com. Warrington, was at Pensacola when the S. sailed, and was to leave in a few days on a cruize—the John Adams, Cap. Wilkinson, was on the south and the Hornet, Cap. Woodhouse, on the north side of Cuba, and Grampus Lt Com. Cassin, in the Gulf of Mexico—the squadron was very healthy.

Authentic advices have reached this city of the decease of the Hon. RICHARD ANDERSON, Minister of the United States to Republic of Columbia. He died at Carthagena, on the 24th ultimo, being on his way to Panama, to discharge his duty as one of the Envoys Extraordinary & Minister Plenipotentiary to the Assembly of American Nations at that place. Na. In.

It is stated in the Raleigh Register of the 29th ult. on the authority of a correspondent, who has seen a copy of the articles of agreement entered into between Com. Porter and the Mexican Government, that the Government have granted to the Commodore, the payment of a claim on the old Mexican Government of 50 or 60,000 dollars for destroying Privateers. The Navy is placed under his entire control—he selects all his officers—he is to locate a certain quantity of land where he pleases, and he is to be created an Admiral at the next Congress. His salary to be $24,000 per annum—his pay continued in all cases of sickness or necessary absence on business in the United States. And what is most liberal of all in case of his death or accident, a pension is secured to his family.

The New-York Times of Tuesday says:—The ship South America, captain Coffin, arrived yesterday in 43 days from St. Salvador. Advices had been received from Rio to the 5 th of June, which stated that an action was fought near Rio Grande on the 20th May between the Patriot and Brazilian armies, and that the latter lost 500 men. Buenos Ayres was closely beseiged, and provisions in demand. Admiral Brown had been successful in all his attacks on the Brazilians. Four British and two French vessels were comdemned for attempting to force the blockade. A Portuguese ship of the line had arrived at Rio, and a ship and brig were daily expected from Chili to assist the Buenos Ayreans

---

The Philadelphia Aurora of Wednesday says:—The principal article contained in the last London papers is the official report made to the Emperor of Russia on the secret societies and alleged conspiracies said to have occasioned the rebellious explosion which signalized his accession to the throne. Agreeably to the report of the commissioners, the ramifications of the conspiracy extend throughout the empire in, almost every province of which organized bands of reformers existed. The professed object was the establishment of a representative government.

A report from the Sandwich Islands, via Canton, states that the two or three persons, one quite a lad, belonging to the Globe, found at the Mulgrave Islands by the Dolphin, were considered, by her commander, as innocent of any participation in the mutiny; and that the ringleaders were among those killed by the natives.

Boston Palladium.

The Swedish, 74 Tapperheten, and frigate Af Chapman, were sold yesterday by the Marshal, to satisfy sundry claims for expenses.—The former was struck off for $70,000, and the frigate at $32,200.

N. Y. Mercantile, Aug. 31.

STATISTICS OF PORTUGAL.

The Almanack of Lisbon, for 1826, among other interesting particulars respecting the kingdom of Portugal states that it contains 4101 parishes, 765.395 houses, and a population of 3,013,900 souls. The superficial extent of the kingdom is 3,150 leagues (20 to a degree.) The list of persons enjoying titles, contains 3 Dukes, 34 Marquises, 76 Counts, 41 Viscounts, and 27 Barons, or 181 in all, and 122 of those persons owe their titles to the munificence of the late king, who during the 34 years of his reign created 1 Duke, (Victoria,) 12 Marquises, 42 Counts, 40 Viscounts, and 27 Barons, not to speak of the titles created and extinct during those 34 years.

From the Cincinnati Register, we learn that Mr. JESSE REEDER, a citizen of that place, has recently invented an instrument which has long been a desideratum in mathematical operations It is called a *Universal Mathematical Measuring Instrument*, and is calculated to afford new facilities in taking courses and distances, without the use of any other instrument. It will therefore supersede the use of the chain, &c. in ascertaining the length of any right line, enabling a person, without changing his station, to take the course and distance to an object by observation and inspection on the instrument, instead of the ordinary plan heretofore used for taking field notes. It will readily be perceived that this will be a great acquisition to surveyors, and we congratulate them upon the discovery of an instrument which will so much diminish their labor."

The New-York Daily Advertiser describes the model of a new *Printing Machine* invented in that city, upon the plan of which one is now constructing for an office there. The movements of the old-fashioned printing press have been very closely imitated, but the operations are performed by machinery and with much greater expedition. The power is communicated by a fly wheel. The axis forms two elbows, each moving a horizontal shaft, one of which drives the bed backwards and forwards, and the other forces down a platten to give the impression. A frame on which the paper is laid moves at right angles to the bed, stopping over it while the impression is given, and sliding out to deliver the sheet. The type receives ink from rollers in passing in. Several parts of the model show great ingenuity, as does also a machine for taking off the paper.

The Cincinnati Register also speaks of a machine for the cutting of *laths*, invented by Mr. THOMAS WRIGHT of that town, which will abridge in a great degree the ordinary labor of making that article. A description of the machine is promised at a future day.

A watchmaker of Philadelphia has just completed a very neat and highly finished *pair of Scissors*, which weigh only one-fifth of a grain, or in the proportion of 28,000 to the pound!

A curious instance of the height of party zeal in England in the elections, is reported in the English papers. A man who got his head cut in a row went to a medical man of the opposite party for assistance, who sewed up the wound; when the man departed, the physician turned round and said, "it was not necessary to sew up that wound, a bit of adhesive plaster would do as well, but we must make these fellows feel a bit."

Col. JAMES JOHNSON, of Kentucky, breathed his last on the 13th instant, as we are informed by letters received yesterday.

We have lost also another valuable member of Congress, happily not by death, but by his being transferred to an office under the Government of his own State. Willie P. Mangum has been appointed one of the Circuit Judges of the State of North Carolina, and it is presumed would not have been appointed, had it not been first ascertained that he would accept the office. [Nat. Intel.

HYDROPHOBIA.—A melancholy occurrence took place on the 6th ult. on the south side of Fishing Creek, Chester District, S. C. Mr. Pagan and his whole family, consisting of seven persons, and three of Mr Abraham Gill's children, in the same neighborhood, were bitten by a dog belonging to Mr. Pagan. Mrs. Pagan has already shewed symptoms of this terrible disease.

PHILADELPHIA MARKETS.—Never, within our recollection, says the U. S. Gazette, were the Philadelphia markets so abundantly supplied with the different fruits of the season; peaches of a large size and most delicious flavor, were sold on Saturday at from 6 to 10 cents the half peck, and water melons weighing from 15 to 20 lbs for 12½ cents—indeed so abundant were the last mentioned articles, that our correspondent informs us they were, after the usual market hours, "given away to the boys and negroes, on condition that they should take away not less than two, the owner not finding them worth a freight home, nor the proprietor of the Ferry Tavern, worth putting into store." Apples and indeed all fruits and vegitables of the season are uncommonly plentiful and cheap—We presume a family may be well supported in Philadelphia at 25 per cent less than any other city in the Union.

THE CATSKILL MOUNTAIN.—A letter from a visitor at this fashionable and pleasant resort, states, that the "influx of company during the past week has been great; and that he, for one, although he has passed four weeks of the season there, has no present intention of exchanging its cool and invigorating atmosphere for the heat of less elevated situations."

The canal arrivals yesterday were twenty-six in number, and thirty-seven departed. Amongst the former was the 'Lion of Ohio,' with pig iron and staves, direct from Madison county, Ohio. This it will be recollected, is the dullest part of the season. Albany Argus.

A ROGUE CAUGHT.

Early last week a person stept into one of the city banks of New York, immediately after the doors were opened, and being tempted by a the bundle of notes lying on the teller's desk, of the denomination of one thousand dollars each. Helped himself to a handful and walked out at double quick time. The clerk pursued, but the thief escaped and came on to Philadelphia, he went to a pawnbroker in the Northern Liberties before bank hours and asked him if he could change one of the notes. The broker replied that he had not so much money in his house, but that he could readily get it changed at the hour of opening the banks if the note were a good one. "The note is genuine," replied the other, "for I got it out of bank myself, and if you do the business for me I will give you five dollars." The broker took the note and proceeded towards Chesnut street, but imagined that something must be wrong, as he was to receive five dollars for walking but a short distance. He accordingly enquired of two banks whether the note was genuine, and being answered in the affirmative, related the circumstances, and was recommended to apply to the Mayor. He did so and the mayor having received private advices from the New York bank, for prudently the New York papers had not given publicity to the transaction, he sent one of the high constables with the broker, to apprehend the thief As they approached the broker's house they discovered the man peeping out of an alley in the vicinity. Suspicion was at once confirmed. They separated for the purpose of apprehending him, but he seeing the manœuvre, took the alarm and made a timely escape. On Friday he made an attempt to effect an exchange of his stollen money at another brokers, and was fortunately apprehended and committed to prison, to await the order of the authorities of New York.

[Philad. Aurora.

A petition has been presented to the Governor by some of the inhabitants of North Carolina, praying him to call the Council of State together, and advise with them on the propriety of laying an Embargo, in order to prevent provisions of every kind from being exported from the state during the present and ensuing seasons.

GOLD.

Discoveries continue to be made of this metal in North Carolina, over still larger extent of the country.—One lump worth $8000 is the largest yet found.

PROPOSALS OF THE MARYLAND INSTITUTE

For the promotion of the Mechanic Arts, for the Exhibition, of November, 1826, addressed to the Mechanics and Manufacturers of the United States.

The Managers of the Maryland Institute for the promotion of the Mechanic Arts, invite the Mechanics, Manufacturers and Artists of the United States, to join in the competition of skill, ingenuity and industry, at the approaching Exhibition to be held on the ELEVENTH DAY OF NOVEMBER, 1826, at the HALL OF THE INSTITUTE, in Baltimore.

The following regulations have been adopted by the board of Managers:—

The award of premiums will be made by committees appointed by the board of Managers to decide upon each kind or branch of manufacture, conformably with the conditions annexed to each, which will, in all cases, be strictly adhered to. And the Managers of the Institute reserve to themselves the right of withholding any premiums, and of bestowing such compliment as the object may be deemed worthy of.

To insure perfect impartiality in the decisions of the Judges, the Institute have determined that no committee shall award a premium to any of its members, and that no manager shall receive any premium or compliment whatever. Being unable to offer premiums for every species of manufactnre, which may be exhibited, the Institute will exercise the right of awarding them to articles not specified, which may be remarkable for their novelty and usefulness, or for their beauty and perfection in workmanship. Proof of origin will be required to accompany every specimen offered for premium. The name and residence of the maker must be affixed to each article, and as far as possible the price at which it can be sold. The Committee of Arrangement, or an auctioneer who will be provided by them, will make sale of all articles, of which it may be the design of the owners to dispose. No premium will be awarded by the Institute to any article which has received one at another public exhibition.

1. To the maker of the best specimen of Cast Iron Pipe manufactured in the United States.* Samples not to be less than one hundred feet of one inch calibre, in sections of at least four feet long; soft iron and clean—a silver medal

2. To the maker of the best specimen of Lead Pipe, manufactured in the United States.

3. To the maker of the best Fire Bricks, equal to the Stourbridge fire brick—a silver medal. There must be a certificate of the time they have been used.

4. To the maker of the best Currying Knife—a silver medal.

5. To the maker of the best Paper Hangings, manufactured in Maryland, not less than twenty pieces to be exhibited—a silver medal.

6. To the maker of the best mill or press screw of wrought iron, for the purposes of clothiers, printers, book-binders, &c. not less than 2 5-8 inches in diameter, and of the usual length. It must perform its revolution in the box without variation at the lower end or pressing point. The box to be also of wrought iron—a silver medal.

7. To the maker of the best and most perfect Scale Beam, for common purposes, superior to any now in use, capable of weighing at least twenty pounds—a silver medal.

8. To the maker of the best table Knives and Forks; at least one dozen pair to be exhibited—a silver medal.

9 To the inventor of the best constructed Grate or Stove for burning anthracite—a silver medal. This grate must be adopted for the purpose of cooking, and a certificate must accompany it, stating the time for which it has been used.

10. To the manufacturer of the best piece of Blue Broad Cloth of American wool; not less than ten yards to be exhibited—a silver medal. Regard will be had to the quality of the dye as well as of the cloth

11. To the manufacurer of the best piece of black Broad Cloth of American wool, not less than ten yards to be exhibited—a silver medal. Regard will be had to the quality of the dye as well as of the cloth.

12. To the manufcturer of the best White Flannel of American wool made in Maryland, not less than forty yards to be exhibited—a silver medal. Assurance must be given that three hundred yards at the stipulated price, will be furnished if required.

13. To the manufacturer of the best Green Baize, not less than fifty yards; not less than 5 4 wide, to be exhibited—a bronzed medal.

14. To the maker of the best Woollen Blankets of American woolone dozen pair to be exhibited—a silver medl. The blankets to be from two to four points regard will be had to the weight.

15. To the maker of the best specimen of Ingrain Carpeting of American wool—a silver medal. A piece of not less than 20 yards to be exhibited, with a certificate of its having been made in the U. States

16. To the maker of the best Worsted Stockings, not less than one dozen pair to be exhibited; the price will be considered—a silver medal Five dozen pair to be furnished at the same price if required.

17. To the manufacurer of the best Loom Cotton Stockings; not less than one dozen pair to be exhibited—a silver medal.

18. To the manufacurer of the best specimen of Calicoes or Pints for ladies dresses; not less than fifty yards to be exhibited—a silver medal.

19. To the manufacturer of the best specimen of Salempore in imitation of that imported; not less than ten piece to be exhibited—a silver medal. In estimating this article its color as well as its texture wil be considered.

20. To the manufacturer of the best Cotton Cloths, in imitation of English Cambrick Muslin—a silver medal.

21. To the maker of the best specimen of Morocco; not less than twelve skins of red, black, green and yellow to be exhibited—a bronzed medal.

22 For the best specimen of Skirting Leather, tanned and dressed in Maryland; ten hides to be exhibited—a silver medal.

23. For the best specimen of Hog Skins dressed in Maryland; one dozen skins to be exhibited—a silver medal.

24. For the best set of Gig or Coach Harness, made in Maryland—a siver medal.

25. To the maker of the best Buckskin Gloves; the leather dresed in the U. States; not less than a dozen pair to be exhibited—a bronzed medal.

26. To the maker of the best Kid or Sheep Skin Gloves; the leather dressed in the United States; not less than a dzen pair to be exhibited—a bronzed medal.

27. To the maker of the best Cabinet Secretary and Book Case, made in Maryland—a silver medal.

28. To the maker of the best black Beaver Hat price $9—a silver medal.

29. For the best black Fur Hat, price $4—a silver medal. Assurances must be given by every competitor, that he will furnish fifty hats equal in quality, and at the price named, if required.

30. To the maker of a Hydrant that shall be deemed and adjudged superior in principle to any now in use—a silver medal.

31. To the person in the United States, who shall have invented an apparatus, practically superior to any now in use for heaving up a ship's Anchor—a silver medl.

32. To the person who shall indicate to the Institute, a method better than any in use, to protect timber in ships or other work against the dry rot—a silver medal.

---

* When the State of Maryland is not mentioned, the United States are understood.

33. To the person in Maryland who from the first of October, to the third of November, 1826, shall have plaited the greatest length of fine straw or grass plat suitable for bonnets—a silver medal.

34. To the person in Maryland who has made the greatest number of fine grass Bonnets or straw Bonnets, from the 1st of October to the 1st of November—a silver medal.

35. To the manufacturer of the best White Lead, 50 lbs. to be exhibited—a silver medal. Assurance must be given that ten tons will be furnished of the same quality, at the same price.

36. To the person who shall discover and indicate any substitute for Printer's Ink, which shall be superior to the present composition—a silver medal.

37. To the maker of the best pair of Marble Mantles of American Marble. The design as well as the execution of the work will be considered—a silver medal.

38. For the best formed Shovels for convenient use, of which at least one dozen shall be exhibited, with an assurance that they can be furnished in quantity at a price not greater than imported—a bronze medal.

39. For a dozen of the best Spades—a silver medal.

40. For the best specimen of Writing Paper, of fools-cap size, at least five reams, specifying the price at which it can be furnished and an assurance that at least one hundred reams will be furnished at such price—a silver medal.

41. For the best specimen of Letter Paper, the qualities of strength, smoothness, capacity to bear ink without sinking—a silver medal.

42. For the best Ink for writing, at least one gallon in quantity, of which specimens on paper, well authenticated to have been written at least one month before the time of exhibition shall be furnished. The price to be stated and assurance as to the quantity that can be furnished—a silver medal.

43. For the best arranged Sideboard, plain, neat and cheap—a silver medal.

44. For the best constructed Fancy Chairs—a silver medal.

45. For the Piano of the best tone and construction—a silver medal.

Persons desiring further informatien, may address themselves by letter (free of postage) to any member of the committee, who will reply to all such communications.

Articles intended for exhibition, must be deposited in the Hall of the Mayland Institute between the 31st day of October and the 3d of November next.

FIELDING LUCAS, JR. Chairman.
Board of Managers.

JOHN MOWTON, Secretary.

☞ Printers at a distance, favorably disposed towards the Mechanic Arts, are requested to give the foregoing list an insertion in their papers.

We find the following excellent letter in the appendix to Mr. J. E. Sprague's interesting Eulogy on John Adams and Thomas Jefferson.

Letter from Mr. Jefferson to Mr. Adams on the death of his wife.

MONTICELLO, Nov. 13, 1818.

The public papers, my dear friend, announce the fatal event of which your letter of October 20th. had given me ominous foreboding. Tried myself in the school of affliction, by the loss of every form of connexion which can rive the human heart, I know well and feel what you have lost,—what you have suffered,—are suffering,—and have yet to endure. The same trials have taught me that for ills so immeasurable, time and silence are the only medicines. I will not therefore by useless condolences open afresh the sluices of your grief, nor, although mingling sincerely, my tears with yours, will I say a word more, where words are vain; but that it is of some comfort to us both that the term is not very distant, at which we are to deposite, in the same cerement, our sorrows and our suffering bodies; and to ascend in essence, to an ecstatic meeting with the friends we have loved and lost, and whom we shall still love and never lose again. God bless you and support you under your heavy affliction.

THOMAS JEFFERSON.

A letter from Buenos Ayres, under date of the 2d May, says: The national fleet left here on the 28th ultimo. Since then a schooner was despatched to gain information of it, but after proceeding off Montvideo, could find neither it nor that of the enemy; from this we conclude they must have both gone to sea. It is now certain that the Chilian fleet does not come round."

A mass of fine native Gold, weighing ten ounces has lately been found in a small brook in Vermont. It has opened all eyes in that neighborhood—where diligent search is making for kindred fragments.

FOR CONGRESS.

My Fellow-Citizens of Queen Ann's, Talbot and Caroline Counties:—

As your present Representative, I solicit your suffrages for the 20th Congress, at the next October election.

JOHN LEEDS KERR.

Easton, Sept. 5.

We are authorised to announce PHILEMON B HOPPER, Esq. of Centreville, as a Candidate for Congress, for the District composed of Talbot, Caroline and Queen-Ann's counties, at the next election.

FOR THE ASSEMBLY.

We are authorised to announce STEPHEN REYNER, Esq. as a Candidate for the suffrages of the citizens of Talbot county, to represent them in the next General Assembly of Maryland

---

We are authorised to announce LEVIN MILLIS, Esq. as a Candidate for the suffrages of the citizens of Talbot county to represent them in the next General Assembly of Maryland.

We are authorized to say that THOMAS P. BENNETT will serve his fellow-citizens of Talbot county in the next House of Delegates of Maryland, if honored by a majority of their votes.

We are authorized to say that SPRY DENNY will serve his fellow-citizens of Talbot county in the next House of Delegates of Maryland, if honored by a majority of their votes.

We are authorised to announce JONATHAN N. BENNY, Esq. as a Candidate for the suffrages of the citizens of Talbot county, to represent them in the next General Assembly of Maryland.

MARRIED.—On Thursday last, by the Rev. Joseph Scull, Mr WILLIAM MORGAN, to Mrs. MARY WOOTTERS all of this county.

——— On Sunday the 20th ult. by the Rev. James Bateman, Mr. BENJAMIN S. ELLIOTT, of Queen Ann's county to the amiable Miss SARAH HARDCASTLE, of Caroline county.

DIED.—At Cedar Point on the 29th ult. after a lingering illness, *John Edmondson Plater*, aged 3 years and 5 months, eldest son of John R. Plater, Jr. Esq.

——— On the 21st August, *Anne Maria Sarah*, infant daughter of Robert H. Goldsborough, Esq.

To the Voters of Talbot County.

FELLOW CITIZENS,

I offer myself as a Candidate for the next Sheriffalty, and respectfully solicit your suffrages.—The Public's ob'd't. serv't.

GEORGE STEVENS.

Sept. 5, 1826 3w

SHERIFF'S SALE.

BY virtue of a writ of venditioni exponas, issued out of Talbot county court, to me directed, against Charles Kirby at the suit of Arthur Holt, executor of the testament and last will of John Scott, late of Talbot county, deceased, will be sold at public vendue at the front door of the court house in the town of Easton, on TUESDAY the 26th day of this present month (September) between the hours of 12 o'clock, M. and 5 o'clock, P. EASTON ACADEMY.

THE Parents and Guardians of boys in the town and neighbourhood are hereby notified that the schools in this institution will be opened for the reception of scholars on MONDAY the 4th of September ensuing.

The classical department will be conducted as heretofore under the direction of Mr. THOMPSON the principal Teacher, whose reputation in that character is too well established to require the aid of additional recommendation.

The other department has been placed in the charge of Mr THOMAS B. WHITE, who professes to teach the English Language Grammatically, Writing, Arithmetic, the lesser branches of the Mathematics and Geography; and whose qualification in these Sciences have been certified with such assurance as to give a reasonable belief that he will prove himself an acceptable, and useful instructor. These schools will be superintended by the Trustees, and the greatest attention bestowed upon the moral conduct and improvement of the pupils.

By order of the Board,
NS. HAMMOND, Pres't.

Easton, Sep 5 4w

TAILORING.

WILLIAM EDMONDSON,

RESPECTFULLY informs his friends and the public generally, that he has taken the shop lately occupied by Mr. JOSEPH COLLISON, 3rd. door below the Bank, and intends carrying on the above business in the most fashionable manner.
