

in my right and left
shoulders and I am injured
in my back and left
hip and also a tumor
growing in my left groin
and crippled in my left
knee and ruptured on both
sides so you can see I am
bad off and was discharged
with all those disabilities
I claim when I came
home I could scarcely
walk and could not
put my hands to my
head I employed several
doctors and they said
there was no cure for
me will you please to
let me hear from you as
soon as possible. Your Truly
