J. W. Willinback,

Dear Sir

Write to ask you did you receive any letters of mine that I have been writing to you every since last April and please let me know in regards of my pension claim. I was examine by an out side Dr. which was Dr. Thomas Smith and I have never heard from you whether you received the Dr examination or not. I have been writing to you every month since and have not received any answer from you in regards of my pension. I am only applying for a pension for the disabilities I received in the late war. I have sent evidence down there to that effect of men who were with me, and if they dont take those mens evidence I could not send anyone else's evidence down there at all
