

EXAMINING SURGEON'S CERTIFICATE

IN THE CASE OF AN ORIGINAL APPLICANT.

No. of Application, 188.913

State: Maryland

County: Balto

Post Office: Batumio Meh 3.

1850.

We hereby certify That we have carefully examined
Josiah Leornish, late a Pri

Applicant's service.

Co. 10, 4 Reg't, U. S. C. I.

in the service of the United States, who is an APPLICANT for an invalid pension by reason of alleged disability resulting from Injury to breast.

Degree of disability.

In our opinion the said Josiah Cornish
is $\frac{3}{4}$ \$6.00 incapacitated for obtaining his subsistence
by manual labor from the cause above stated.

Origin.

Judging from his present condition, and from the evidence before us, it is our belief that the said disability did _____ originate in the service aforesaid in the line of duty.

Probable duration.

The disability is progressive -

A more particular description of the applicant's condition is subjoined:

Particular description.

Height, 3.5; weight, 150; complexion, best,
39; pulse, 80; respiration, 20.

age, 39; pulse, 80; respiration, 20.

Injury to breast: In answer to memorandum slip we would say ¹ that there is evidence of injury to chest, ² there is deformity, as found on careful examination, ³ there is no evidence of syphilis: we believe his disability a result of injury and not of vicious habits. Applicant alleges that wheel of cannon crushed his chest, and caused at the time hemorrhage from lungs: that he has often expectorated purulent mucus since that time, and has often spit up blood: he has not had pneumonia: left side of chest somewhat flattened and does not expand as well as right side: - dullness on percussion on left, and respiratory murmur not well heard on this side: dyspnea: night sweats: a cicatrix 2 inches long, horizontally, is over middle of sternum, - he alleges it to be a result of the fall of the cannon wheel on him.
