

I thought he got the piles from straining at logs and things we were lifting. He never was complaining before. We were putting up posts at Yorktown Va when he first complained of piles. He never recovered and we were discharged at the same time & he was then complaining of piles and we have come here & were discharged. I lost sight of him then until about 8 yrs. ago when I met him & he was down sick with piles & I went to see him & he has since been complaining of piles. Capt. was wounded & injured in service also. I saw him after he was wounded but I can't say much as to his wound can't say now if his wound was in arm or shoulder. Can't remember where we were when he was wounded. He was wounded after he had the piles. I can't say as to his injury to his chest but I remember that he was injured in the chest I am correctly recorded his name
