

BY 74 DATE 2-11-87

3^o Q^y - "No, Sir, I could not tell any more"
 And being examined by me for and on behalf of the United States, he makes answer and says,

To the 1st Croq. interrogatory, "Mr Graf, if Claimant's husband had had Small Pox during the period from 1865 to his enlistment, do you think you could have known it, and would now be able to recollect it if you had known it at the time?"

Aⁿs - "I could have recollected it if it had happened, I never knew he had it, We were so intimately acquainted that I think I would have known it if he had it during that time, But you know Small Pox is such a disease as people always try to suppress all knowledge of, and it may be he had it and I did not know it, But he could not have had it very badly"

2^d Croq. - "Do you recollect the memorable small-pox year here in this City, and if so what year was it?"

Aⁿs - "At the time the Small Pox was so bad here?"

Question, "Yes"

Aⁿs - "73 or 74, I think it was"

3^d Croq. - "Do you believe you were sufficiently well acquainted with Claimant's husband to say that his lungs were sound, and that he was a perfectly healthy man before the war?"

Aⁿs - "Yes, Sir, I can testify to that, He was not only healthy, he was bright, some men are apparently well, but dull, He was bright and active, and further declares that he has no interest, direct or indirect, in the claim of _____ for a pension; and further saith not.

George Graf
 Deponent

Sworn to and subscribed before me this 10th day of January 1882, and I certify that the contents were fully made known to affiant before signing.
