

Q "That is the year when the war ended 1865, in the Spring?"

Q "Can you say in what month of what year you first saw him after he was discharged?"

A "May, June or July 1865."

Q "Can you now recollect whether he had a cough then?"

A "I could not tell, I know he had a cough, but I could not fix the month in which I observed it for the first time."

Q "Could you fix the year?"

A "Yes, 1865."

Q "Are you positive it was 1865?"

A "Yes, I think I am positive on that."

Q "What kind of a cough was it?"

A "It was a hollow, hoarse, rough cough."

Q "When did he die?"

A "I think he died in 1865, about New Year, late in the year."

Q "How long had he been home?"

A "From five to seven months."

Q "How long before he died, was you first observed his cough?"

A "It's this way, Mr Morgan, he was home much more all the time after he came home, than before he went away. I thought he had the cough when he came home."

Q "Were you present during this last illness?"

A "I was not present when he died, I saw him several times in his bed before that."

Q "Have you heard he died of Pneumonia?" A "Yes, Sir" and she further declares that he has no interest, direct or indirect, in the claim of Sophie Chambers for a pension; and further saith not.

George Graf

Affiant.

I sworn to and subscribed before me this 11th day of February 1882, and I certify that the contents were fully made known to affiant before signing.

A Morgan

Special Agent.
