

-2-

Talbot Co., Md., and Benj. Cook, of Timonium, Baltimore Co., Md.

When a claim is placed in your hands for special examination it is expected that you will secure evidence enough to settle it, or else exhaust all sources of information on the point at issue which may be obtainable in your district, accordingly, this case is returned to you that you may see the two comrades last named above and secure their depositions if they can give any information material thereto. You are directed to take up this case next after special work on hand, and to make this letter an exhibit of your supplemental report.

On the back of your daily report next after the receipt hereof enter this case, giving name and number, as one returned to you because of faulty and insufficient work.

Very respectfully,

J. L. Danforth

Acting Commissioner.
