in any paper in the presence of the young lady clerk at Legas.

No sir. She never was in that front office & do any business while I was there and I never was in the back office only to carry some papers in there.

What accusations have you now such as to interfere with your ability & labor.

The vertigo rheumatism and being shut across the back.

In the summer time the sun strikes affects me. The heat brings this vertigo on. When it gets too hot I have to stop work.

By what witnesses can you prove you were present.

James Britton who was in the same train with me. He lived in Ballwin 6 or 7 yrs ago. I haven't seen him in that time. I don't work with my leg at the time. My wagon master was John France. a white man. The train was in charge of Capt. Brain. John France would know all about the sunstroke. If you could find him out. I don't know whether he is living or dead.

Had you any eye trouble yes as result of that sunstroke. My eyes were first affected in the service. I had sore eyes then. I can not read but if I could I could not see & read. Because the letters all blur together and my eyes fill with water. I was so
