

Page 15 they about the time of murder
out.

He was sick of and on most
all the time. I cant say exactly
at the time of murder out.

Do you know of his having malaria
or biliousness or stomach trouble in
service

I dont know. He used to go to the
Dr. You never could tell unless
you heard him complain. The
report - I always received was that
a man was excused or would re-
port for duty. I do know that Davis
was sometimes excused from
duty by the Dr. and I remember
that he complained of his eyes and
claimed to have been punished.

I have seen him once in a while
since the war. Some years past
after. I have not worked with him.
I dont know what complaints he
has had since the war only I sup-
pose the same. I never have been
in his company much only to meet
him and pass on.

I was a witness once in his case
I guess that was in 1890 at the Court-
house or Lloyds office or the magis-
trate. I might have went with him
to the Court House - I couldnt say. I
know I was witness for him.

Was he witness for you when you
made your claim

He was witness for me at
the time. I dont know whether he
was witness for me same day
I was for him. I couldnt go into
detail as to how working off
