I didn't go to Mr Loyas any more till I got a postal to come. That might a been about a month later.

I am sure I didn't see the young man called Ellie. The first time I was there I saw no body at Mr Loyas office but just a day. In Sept Miss Bessie I met a white lady coming out the door just as I was going in. Miss Bessie was alone there. All the time I was there and she put me with the paper to the squire and I didn't go back. I asked her if it would cost any money and she asked me if I had any and I told her no and she said well you take this to the squire and he will swear you and tell him Mr Loyd will attend to it. and for me to tell the squire to bring the paper on to Mr Loyas. which I did and went on home. and didn't hear any more about it. Till I got a postal card to come down to Mr Loyas office.

I never paid any thing at Loyas office nor at the squire's office. The next paper I had to submit to Elsie Wright was along and the squire asked me for 10 cts & I traded any. and Elsie Wright took out 10 cts and gave it to the squire.
