

sick in quarters. I think he was
swelled up ^{in his private} awhile in the army
but after he came home here I
did not know that he was
disabled in his private.

For two year past I have heard
him complain of being Pruptured
that was the first I knew of it.

He did not make any such
complaints in the army.

I never saw or examined his
rupture at any time.

The Pleen, was caused by a general
exposure, not any particular or
definite exposure.

(aff. read.)
No I do not mean that Col.
complained of being ruptured
in the army.

I know about his complaints
of Pleen in his thighs and back
and was stiff but I have no
knowledge of Rupture in the
Army.

No intent. No harm.
Form of Pleen as understood
Army answer on Court's
rec'd &c
