SIR:

In reply to your request I have to state that I am well acquainted with the applicant James Saylor. We went into the army at the same time, in the same Regiment both from the same place he contracted the Rheumatism whilst in the army from exposure and the Rupture I heard him say the same thing - he did not complain about that so much at the time - No doubt thought he could get over it, but he never has. He is a very sober and industrious man - stands well in the Community in which he lives very quiet and certainly deserves a pension. He has quite a large family depending upon him for support.

Very respectfully,

his
