it is likely that Rice forged the name of this defendant John Boston, to it as it appears as an identifying witness,

In view of Mr Boston's statement I deem it important that this case be returned to Baltimore that the statements of B.B. Turo, and Frank M. McDonald, whose names appear to the application of July 23rd 1890, be obtained, as to their knowledge of the execution of said application, I believe said application invalid.

Very respectfully
