SURGEON'S CERTIFICATE.

Insert character and number of claim.

Increase

Pension Claim No. 11,716

Name of claimant.

William Murray

Address of Board.

Baltimore

P. O.

Company Reg't U. S. Navy

Maryland

State.

Claimant's post-office address.

1133 Kirk St.

November 30th, 1903

[Date of examination.]

Names of disabilities.

Disease of eyes, heart, lungs, throat, kidneys, asthma, vertigo, affection of right wrist, rheumatism, nervous debility and age

He receives a pension of \$6.00 dollars per month.

Here give the claimant's statement (as briefly and as compactly as possible) in regard to the date of origin and cause of his disabilities and the manner in which they affect him.

He makes the following statement in regard to the origin of his disabilities and date when first discovered by him: Heart trouble, asthma and rheumatism for years, cause unknown-affection of right wrist for 5 years past-cause unknown.

Birthplace, Baltimore, Md; age, 63 years; height, 5-4 1/4; weight, 152 pounds; complexion, Mulatto; color of eyes, gray; color of hair, gray; occupation, Laborer; permanent marks and scars other than those described below, none

We hereby certify that upon examination we find the following objective conditions:

Pulse rate, 76-76-84; respiration, 18-18-20; temperature, N

[Sitting, standing, after exercise.]

[Sitting, standing, after exercise.]

Here give a full description of the disabilities, in accordance with Book of instructions, and make a separate paragraph for each disability.

DISEASE OF EYES-Lids, conjunctiva, cornea and pupils normal-Vision of both eyes or either eye 20/20.

DISEASE OF HEART-The heart is normal in size, position and action. Apex beat in 5th left interspace-no dilatation, hypertrophy, dyspnoea, edema or cyanosis.

DISEASE OF LUNGS-Chest at rest 38-full inspiration 40-full expiration 38. Percussion and auscultation reveal a normal condition of lungs and bronchi.

DISEASE OF THROAT-No evidence of disease of throat.

DISEASE OF KIDNEYS-Specific gravity 1020-amber color-acid reaction-no albumin, sugar or other abnormal deposits.

ASTHMA-No objective evidence of asthma.

VERTIGO-No objective evidence of vertigo.

AFFECTION OF RIGHT WRIST-There is a large bursa on palmar surface of right wrist which causes slight impairment of motion of wrist joint.

RHEUMATISM-There is soreness and crepitation in shoulder and knee joints with pain complained of upon motion-no enlargement of joints or atrophy or swelling of muscles-no contraction or limitation of motion. Upon stooping he complains of pain over the lumbar muscles and recovers slowly and with some difficulty. No atrophy or swelling. All other muscles and joints normal.

NERVOUS DEBILITY-No objective evidence of nervous debility.

AGE-No senile or general debility.

There is a scar on anterior surface of fore skin of penis but no induration. There is a large depressed and adherent scar in left groin, evidently the result of a chancroidal bubo. Other glands normal. Osseous system normal-no evidence of tertiary lesions in brain, spinal cord, heart, lungs, liver or other viscera. Condition of palate, nasal passages, throat, skin, hair, skull, tibia and other bones normal.

No other disability found to exist.

We find that the aggregate permanent disability for earning a support by manual labor, is due to Rheumatism, not due to vicious habits, and warrants a rate of \$6 per month.

When rates are recommended solely on subjective evidence the strongest reasons must be given therefor.

C. T. Scurry, Pres. H. A. Janette, Sec'y. B. J. Scurry, Treas.
