

L.A. Exr

Inv.Ctf.No.11716,
William Murray,
U. S. Navy.

August 29, 1905.

Sir:

In the above-entitled claim for increase of pension, under the Act of June 27, 1890, filed July 8, 1905, you are informed that an order for medical examination is not shown to be warranted.

However, if the affidavit of a credible physician be filed, clearly describing the ~~nonunioner's~~ claimant's disabilities, the propriety of ordering an examination will be further considered.

Pensioner's claim to be sixty-five years of age is full controverted by his former allegations showing that he is about sixty-four years of age at the present time.

Very respectfully,

Commissioner.

Mr. A. Parlett Lloyd,
Baltimore, Md.
