Sir:-

In the above noted claim for renewal of pension under the Act of June 27, 1890, you are advised that it awaits testimony, medical if possible, showing whether the claimant was disabled by rheumatism from May 20, 1902, the date of filing claim, to November 30, 1903, the date of medical examination; and, if so, the degree to which he was incapacitated thereby from earning a support by manual labor.

Very respectfully,

Commissioner.

A. Parlett Lloyd, Esq.,
Baltimore, Md.
