

Bureau of Pensions.

Medical Division,
June 22, 1895.

Cert. No. 11,716,
William Murray,
U. S. Navy.

Memorandum:

This soldier resides in Baltimore, Md., and has returned the order of June 1, 1895, directing his examination by the 3rd D.C. Board.

He does not object to the distance, but claims that he has been examined six different times by medical boards,- four times in Baltimore and twice in Washington. He says that when he shall receive a certain report that he has asked the Bureau for, he will give the Bureau further information.

A letter has this day been addressed to the claimant, returning the order referred to above, and informing him that he should obey the same, as an examination is required in the further consideration of his claim for pension under the general law.
