

not justifiable on the part of the Bureau ^{and} that it was error to drop the man from the one law ^{and} put him under another simply to confiscate \$1.33 of an earned fee. Your petitioner verily believes that the cost of issuing this superfluous certificate ^{and} the execution of a superfluous voucher fully equaled the amount confiscated by the Government.

Wherefore I respectfully appeal believing that the fee of \$2 fixed by law should be paid to me ^{and} that it was error of the Bureau to drop this man from the rolls ^{and} restore him under another act in order to defeat the payment of the fee provided by an Act of Congress.
