

how much I don't know, but I know the house was sold to pay it off. The house was situated at 1309 Division Street - I don't remember how much it brought. I am not overly familiar with Mrs. Rosie's affairs since the house was sold. I cannot tell how much she had left after the paying of all expenses and the mortgage but I am quite sure she could not have had more than \$200.00. So far as I know the soldier was not insured and did not hold any stocks or bonds.

I am not related to the claimant, have no interest in her claim, have understood your questions and my answers are correctly recorded.
