

told me some days she will be quite rational - again become profane, abusive and violent, on a moment's notice, and without apparent cause.

Her brothers and sisters could refer me to one now living who had known her in Baltimore before her marriage to soldier except another sister Christina Clark - who was in Baltimore when Margaret was there - and who could probably refer to others, not related who had also known claimant before she married soldier - and after as well.

Margaret is a tall mulatto - rather thin in flesh. Her brothers and sisters answer the same description.

I recommend further examination at Baltimore, and as indicated in Carr Division letter much a part of this report, and Christina Clark #1125 - a spy in Baltimore and should be first seen to secure data for inquiry.

Very respectfully,

J. P. Fletcher
