EXAMINATION—Continued.

He presents no symptoms of General Debility.

No other disability found to exist.

His skin, bones, glands, penis, hair and mucous surfaces, present no evidence of syphilitic infection or other vicious habits.

We find that the aggregate permanent disability for earning a support by manual labor is due to Single, Inguinal Hernia, which passes through the external ring, not due to vicious habits, and warrants a rating of \$10.00.

A. A. White, Pres. Geo. R. Baker, Sec'y. G. Lane Vanhook, Treas.
