

Attention is invited to the outlines of the human skeleton and figure upon the back of this certificate, and they should be used whenever it is possible to indicate precisely the location of a disease or injury, the entrance and exit of a missile, an amputation, &c.
The absence of a member from a session of a board and the reason therefor, if known, and the name of the absentee, must be indorsed upon each certificate.

Insert character and number of claim. Increase Pension Claim No. 569262
[State above whether for original, increase, or restoration.]
Name and rank of claimant. Amos Dunsen, Rank, corpl
Company F, 30th Reg't USC & Inf. Baltimore, Md State,
1421 Bunt St. Balt, Md [Post office address of the Board.] Feb'y 20th 1895.
[Date of examination.]

We hereby certify that in compliance with the requirements of the law we have carefully examined this applicant, who states that he is suffering from the following disability, incurred in the service, viz: Rheumatism + disease of rectum, chronic disease of rectum - weak eyes - rupture or affection of groin
and that he receives a pension of eight dollars per month.
He makes the following statement upon which he bases his claim for Increase
[Original, increase, restoration, &c.]
He has rheumatism in the right hip
He has rectal disease - He has weak eyes
Here give the claimant's statement as briefly and as compactly as possible.

Upon examination we find the following objective conditions: Pulse rate, 88; respiration, 22; temperature, 98; height, 5 feet 5 1/2 inches; weight, 146 pounds; age, 53 years. Gen physical condition good
Rheumatism - There is slight rheumatic tender
ness over the right hip joint without enlargement of joint or atrophy or swelling of muscles. There is no crepitation nor limitation of motion. The heart is normal.
Disease of Rectum - There is a fistulus opening about one-half inch to right of anus, which communicates with the rectum. The canal is one inch and a half. There is ichorous matter exuding from the opening. There is also a scar to the left of + one above the anus, representing former fistulus openings, which are now entirely closed
Chronic disease of Rectum - none other than described above.
Weak Eyes - The lids are normal - Pupils are of average normal size + respond slowly to light + shade - cornea transparent - Vision - Both eyes - 20 - right eye 20 - left eye 20
Rupture or affection of groin - There is no objective evidence of rupture or affection of groin.
Here give a full description of the disabilities, in accordance with Book of Instructions.
The actual or probable origin of every existing disability must be fully set forth. Whenever a disability is shown, or is believed to be due to or aggravated by vicious habits the opinion of the board must be stated. When not due to such habits this fact must be stated.

Anderson, Pres. H. S. Smith, Sec'y. D. C. Ireland, Treas.

N. B. - Always forward a certificate of examination whether a disability is found to exist or not.
