Brooks complaining of rheumatism  
and discharges of eyes.

I have no recollection of any  
thing being the matter with him  
directly after the war or thereafter  
until four or five years ago.  
It might have been some longer  
than that. I can't say positively  
but I think that is about how long  
I have heard him complain of  
rheumatism and trouble with his  
eyes.

Having had made known to me  
the nature of this claim I will  
say that it is possible that  
Brooks may have been affected  
in service as claimed but  
I am not able to recollect any  
thing about it in service or  
since other than I have herein  
before stated.

My answers are correctly  
recorded herein.

Logan Dennis

Deponent.

Sworn to and subscribed before me this 6 day of Nov.,  
1895, and I certify that the contents were fully made known to deponent before signing.
