ever since except 8 months I spent  
in Pa.

When I first saw claimant after his  
return from the army (which was about  
6 months after his return) down in  
Calvert Co. Md. he complained of  
rheumatism and trouble with his  
eyes and has been complaining with those  
disabilities ever since then.

I am not sure where he said he had  
rheumatism but I think he complained  
of it in his back. I don't remember  
the appearance of his eyes. I don't remember  
what he said about his eyes. He just  
said there was something the matter with  
them. During the time I was sailing I  
would see him now and then. Every  
time I would see him he would complain  
of rheumatism. Sometimes he would be  
at home and sometimes he would be  
around the wharf when I would see him.  
I could not tell you any thing about to  
what extent he has been disabled since  
the war on account of rheumatism. I have  
never heard him complain of any  
disability since the war except rheu-  
matism and disease of eyes. He wears  
glasses now, but I can't tell you how long  
he has worn them. I don't know any  
thing about him having been affected  
with pain in left side, shortness of breath,  
sickness of head, sunstroke or any  
other disease or disability since  
the war.

My answers are correctly recorded  
hereto.

John G. Rhoads

Deponent.

Sworn to and subscribed before me this 30 day of Oct  
1895, and I certify that the contents were fully made known to deponent before signing.
