

was at the wedding.

Jeremiah Jobs and Mary Jobs were never divorced. They separated a few years after the war but I can't tell you in what year. Their son William was a little boy wearing dresses when they parted. I don't know why they parted. I don't know any thing about her alleged marriage to Shelton or how long she lived with Shelton. I don't know anything about her relations with Shelton. Jeremiah Jobs was said to have taken up with a woman named Mary Jobs as she is now called after he separated from his first wife but I don't know anything about what relations he bore to her.

I know that neither he nor his first wife were ever married before they married each other. I can't tell you anything about the particulars of their marriage but I have always understood they were lawfully married and I never heard of anything about either of them ever getting a divorce.

My answers are correctly recorded herein.
