

made unusual effort to obtain the exact date of this girl's ^{birth} age, because of the fact that she is violently insane and would be pensionable indefinitely if under sixteen when claim was filed. Chub. in a supplemental statement swears that her daughter was 3 or 4 years old when her grandson, Harry Paul, was born. Having fixed the date of his birth as Nov 8, 1878, it is shown that Catherine must have been born about 1874 or 1875, either year of which would put her outside the limit of the law. I have seen the girl and believe she must be at least 19 or 20 years old now.

Attention is respectfully invited to my supplemented report herewith touching irregularities of the Attorney of record, per Commissioners order of March 14, 1894.

Chub., like most people of her class here, is possessed of no property or means and lives upon charity most of the time.

The claim is undoubtedly one of merit and I respectfully recommend admission
