

Page 6 Knapstock at the time. I took no part in the fight. was sitting on the other side of the boat with members of my Company. Immediately after I received the wound I bandaged it up - or rather I got one of my comrades ~~H. Henry~~ Leonard to bind it up - Don't know where he now is. After that and up to time I was discharged I bandaged and bathed it in cold water. I received no treatment for the wound while in service.

The wound was not very severe at first took cold in it and it became a running sore. Took cold in it while in service.

From the time I was discharged up to the following May 1866 - my leg was in a bad condition - it was all swollen and gathered and I could just hobble around. Dr. ~~Crunk~~ ^{Crunk} - now dead - treated me - He gave me some kind of Salve to put on it to heal it. Dr. ~~Crunk~~ ^{Crunk} kept a drug store in my neighborhood. Cor. Sharp ^{4th} Henrietta Sts.

I was next treated for the wound of leg by Dr. William S. Booz N. 506. S. Sharp St. this was about four years ago - I only got two boxes of Salve from him. was not able to have him come to the house. I have no recollection that I was treated by Dr. Coburg.

From May 1866. up to Spring of 1886 the wound broke out in a running sore every Spring - and when it healed up it would pain me a great deal. I have used salves that are prescribed by Dr. Crunk & Booz. I have lost at least 1/2 of my time since my discharge on account of the wound of leg. I have not made a full week
