

Page 8 I affected ~~it~~ the sight of the eye some-
while in service I again injured it while
going out on Picket duty near Petersburg.
I was going out on Picket duty and run against
a brush - injuring my eye - And was treated
for it in hospital at Cedar Point Va. for
~~my eye~~ four weeks. I think this was in
September 1865 - Prior to this time my eye
sight was fairly good - but after, the sight
of the eye gradually left - And about four
years ago I lost the sight of the eye entirely.
Dr. Chesley Balto. St. treated me for the
eye - Took the eye out and examined it
then put it back again.

I know of none of my Comrades who
would know that I injured the eye
as alleged while in service.

I did not have disease of eyes at City
Point. My right eye was all right.
Questions understood.

Answers correctly recorded.
