SIR:
In reply to your request I have to state that I have known the
thruout Applicant. I have nothing to go to
Regiment. We Enlisted the same time and
were in the Regiment together he went to the
Hospital in June or the latter part of July
or there I don't remember which 1864. his Disease
at this time I heard of Believed was Chronic Rheumatism
I have known him for 30 years. But I have only
a knowledge of having him complaining at
different times during that period of his Throat
and also his Rheumatism. This is as about as
as far as I know of his disability. Except that
he complains to me hard of Stammering in his
left Ear. Which I believe has been cured
for the last ten years this is all
that I can think of at the time
I am Not interested in the case

Very respectfully,

Very respectfully,
William H. Shepperd
