being hurt some way while
 at work on the fortification
 but did not see him injured
 and do not remember the
 nature of the injury - I think
 I saw him afterwards but do not
 remember anything except that
 he was camped all the time
 after working on Fort Magerman
 where I think it was that he
 got hurt

I did not tent with him at
 all in service.

I remember now how he got hurt.
 he was on a scaffold in the trench
 and in dumping a tub of dirt
 he fell off the scaffold and hurt
 himself, but can't say positively
 where he got injured. I did
 not do much duty afterwards

The fall did not knock him
 senseless

I can't remember whether he
 or not fits in service. He may
 have had them.

I have seen him two or three
 times each year since discharge
 never worked with him since
 and never know of him having
 fits since discharge.

I have made an affidavit to

Attest
 Henry G. Reed
 J. Brooks

of his
 Thos. L. Fisher
 Mark

Deponent.

Sworn to and subscribed before me this 11 day of July
 1888, and I certify that the contents were ~~fully~~ made known to deponent before signing.

Special Examiner.
